

SHIFT LIGHTS

**DIGITAL PRO SHIFT SYSTEM**

Autometer's Digital Pro Shift System (DPSS) is an advanced shift light and tachometer with many exciting features. It is available in two styles: as a standard 2-1/16" gauge or the traditional tube style with a new, innovative swivel mounting system. A controller is also available for those who wish add DPSS features to an existing shift light.

DPSS Level 1

The DPSS's digital RPM display provides highly accurate and precise readings so you get the perfect shift at the right RPM.

- Features:
- Digital RPM Display
 - Super Bright LED Shift Light
 - Easy, 3 Button User Programmable Interface
 - Single Programmable Shift Point

DPSS Level 2

The four programmable shift points allow you to set an entire cycle of gear changes. This feature allows you to keep your eyes on the road and still monitor your shift points. The LED lights will illuminate when you reach your shift point and flash when this RPM is exceeded.

The launch feature allows you to set a precise launch RPM from a dead stop.

- Features:
- All Level 1 Features
 - Four Programmable Shift Points and Launch Light
 - Progressive Colour Change Shift Lights
 - Custom Shift Light Colour

DPSS Level 3

Level 3 allows you to record and playback up to 80 seconds of RPM activity to analyse your shift points and improve consistency. Connect to any Autometer tachometer to turn it into a playback tach and view recorded data on the gauge face.

- Features:
- All Level 1 & 2 Features
 - 80 Second Playback

TUBE STYLE DPSS

The tube style DPSS is available in black or silver and features the unique AIM swivel mounting system that allows for left and right adjustments as well as angle adjustment in all directions.

Description	Level 1	Level 2	Level 3
Tube Style - Black	AU5343	AU5348	AU5350
Tube Style - Silver	AU5344	AU5349	AU5351

GAUGE STYLE DPSS

The gauge style DPSS is available in different series to complement your other Autometer gauges. It is a standard 2-1/16" gauge housing and works with Autometer cups and mounting accessories or can be dash mounted.

Description	Level 1	Level 2	Level 3
Cobalt Series	AU6187	AU6188	-
C2 Series	AU7187	AU7188	-
NV Series	AU7387	AU7388	-
Phantom Series	AU5787	AU5788	-
Sport Comp Series	AU3387	AU3388	AU3389
Ultra Light Series	AU4387	AU4388	AU4389

DPSS CONTROLLER

These controllers allow you to add DPSS functionality to your existing shift light. All of the DPSS features are available except for the custom shift light colours. Level three will also connect to any Autometer tachometer to turn it into a playback tach.

Description	Level 1	Level 2	Level 3
DPSS Controller	AU5312	AU5313	AU5314

Quick-Lite Shift-Lites

LED Shift-Lite is a replacement option for Auto Meter tachometers with the larger size light. Can also be used as a shift-lite when used with the Auto Meter DPSS controller or other RPM trigger

AU5330 Quick-Lite Shift-Lite Black

AU5331 Quick-Lite Shift-Lite (Silver)

AU5329 Quick-Lite Shift-Lite (Chrome)

**Shift-Lite**

As found on the Auto Meter Monster Tachs

AU5334 Shift-Lite (Black) Yellow lens & Boot

AU5335 Shift-Lite (Silver) Yellow lens & Boot

Auto Meter Pro Shift-Lite

The Pro-Shift is an independently operating shift light with advanced microcircuitry. The shift-point is selected by inserting a precisely calibrated RPM module pill into the unit. The amber light activates when the engine reaches the chosen RPM. Suits points or electronic ignitions. A variety of clearly marked RPM module pills are available. Different coloured lenses and night covers are also available.

AU5340 Pro Shift-Lite (4, 6 Or 8 Cyl.)

RPM Pill Kits

For use with the Pro Shift-Lite or RPM activated module. Each kit includes 5 calibrated module pills in 200 RPM increments.

AU5353	RPM Pill Kit (3000, 3200, 3400, 3600, 3800 rpm)
AU5354	RPM Pill Kit (4000, 4200, 4400, 4600, 4800 rpm)
AU5355	RPM Pill Kit (5000, 5200, 5400, 5600, 5800 rpm)
AU5356	RPM Pill Kit (6000, 6200, 6400, 6600, 6800 rpm)
AU5357	RPM Pill Kit (6600, 6800, 7000, 7200, 7400 rpm)
AU5358	RPM Pill Kit (7000, 7200, 7400, 7600, 7800 rpm)
AU5359	RPM Pill Kit (7600, 7800, 8000, 8200, 8400 rpm)
AU5358	RPM Pill Kit (8000, 8200, 8400, 8600, 8800 rpm)
AU5359	RPM Pill Kit (9000, 9200, 9400, 9600, 9800 rpm)
AU5360	RPM Pill Kit (10000, 10200, 10400, 10600, 10800 rpm)

Super-Lite Shift Light

For the ultimate in shift light technology, check out the new Super-Lite. This new super bright light has 12 LEDs for high intensity shift alerts; no missing this Shift Light! A three position brightness switch allows you to adjust for day or night racing. This shift light replaces any existing Auto Meter Shift Lite or can be used with DPSS Controller

AU5332	12 LED Shift-Lite (Black)
AU5333	12 LED Shift-Lite (Silver)

MSD Adjustable Intensity**LED Shift Light**

Pro Stock drivers were looking for a simple and small shift light that they could easily control the intensity of the LED. Easy enough. Here's the solution that plugs directly into our Programmable 7-Series Ignitions.

MSD7542 Adjustable Intensity LED Shift Light

**WIRELESS DIGITAL MINI SHIFT LIGHT AND PORTABLE TACHOMETER COMBO**

Proform's new Wireless Mini Digital Shift Light and Portable Tachometer can be easily installed in vehicles with 1-12 cylinders. The transmitter hooks up under the hood with just 3 wires, and sends a signal to the shift light which is inside the driver compartment.

- Only 4-1/4" long
- Bright 3 LED light
- All settings are easily controlled with two buttons
- 100-12,000 RPM range in 100 RPM increments
- Cylinder range of 1 thru 12
- Adjustable brightness for the digital display, and a display on/off feature when in use.

PR67006C

DIGITAL MINI SHIFT LIGHT AND DIAGNOSTIC TACHOMETER COMBO, 3-WIRE

Easy to set digital shift light will help you leave your competitor eating exhaust at the track! Proform's new Mini Digital Shift Light and Diagnostic Tachometer can be easily installed in vehicles with 1-12 cylinders. Measuring at only 4 1/4" long, this 3 LED light will give you the signal when it's time to shift!

- All settings are easily controlled with two buttons.
 - 100-12,000 RPM range in 100 RPM increments
 - Cylinder range of 1 thru 12
 - Adjustable brightness for the digital display, and a display on/off feature when in
- PR67007C

MSD DIGITAL**SHIFT LIGHT**

The most universal and easy to use shift light available! This new compact Digital

Shift Light can be installed on everything from 1-cylinder points triggered engines to Modular Ford engines with coil-on-plug technology. The tiny digital controller inside the compact housing gives you the ability to program the rpm activation points through the easy to view LED panel and two programming buttons. When the engine reaches the activation rpm, the six red LEDs illuminate bright enough to alert your senses into throwing the shifter at the exact rpm. You can even program up to four different rpm values for different gears! (4 stage only). The DSL can be installed on single cylinder engines up through 12-cylinders on stock ignitions or high powered aftermarket systems.

NOTE: Supplied with the new GMR pickup. This makes installation even easier on diesels, points, coil-on-plug and most any other applications!

Digital Shift Light 4 Stage Programmable MSD8963

Digital Shift Light Single stage MSD89631

MSD SHIFT LIGHT

The MSD Shift Light will turn on to "remind" you to shift when the engine reaches your specified rpm. You select the rpm using the same plug-in modules that are used with your MSD Soft Touch Rev Control. The Shift Light features a bright cluster of LEDs (light emitting diode) making it easily visible, even in bright daylight. The light will also turn on for a second or two when the ignition switch is first turned on to inform you that the light is functioning properly. The Shift Light will work on 2, 4, 6 or 8-cylinder engines and will plug directly into the tach output on MSD 6, SCI, 7, 8 and 10 Series Ignitions or can be connected to the negative coil terminal when used with points or inductive type ignitions. The MSD Shift Light is 4.5"L x 3.5"H with a 1.5" diameter lens. (No rpm modules are supplied.)

Shift Light MSD8952

RPM Modules sold separately, please see ignition section for full range of modules available.

WARNING LIGHTS

**LOW OIL PRESSURE WARNING LIGHT**

Quick-response switch immediately alerts the racer to a low oil pressure condition. Switch is adjustable to illuminate when pressure falls below 15 to 50 psi. Extra large 2-1/2" diameter Lexan lens is impossible to ignore. Light assembly is rubber-mounted to protect against shock.

Description
Low Oil Pressure Warning Light Kit
Replacement Oil Pressure Switch

Part No.
MO49500
MO97015

**Mini Pro-Lite Warning Light**

Light-weight aluminium mini light operates the same as a 3240 Pro-Lite by giving you unmistakable warning in the midst of racing action. A bright red incandescent bulb attracts immediate attention (night cover included). 12 Volt power & sender required. Sender options below.

AU3238	Mini Pro-Lite Warning Light Ultra Lite (Silver)
AU3239	Mini Pro-Lite Warning Light (Black)
AU3254	Mini Pro-Lite Warning Cover Kit.

Includes blue, yellow and red boots

Warning Light Senders

AU3241	Pressure Sender 18PSI.
AU3242	Pressure Sender 30PSI
AU3243	Pressure Sender 50PSI
AU3246	Temp Sender 200 degF
AU3247	Temp Sender 220 degF
AU3248	Temp Sender 275 degF

Pro-Lite**Warning Light**

The original Pro-Lite warning light gives you unmistakable warning in the midst of racing action when there's little time to monitor gauges. It is recommended that the Pro-Lite be used in conjunction with gauge to give first alert to problems.

AU3240	Pro-Lite Includes red lens & night cover, sender req.
AU3250	Blue Lens Kit (Inc. Lens & night cover)
AU3251	Yellow Lens Kit (Inc. Lens & night cover)
AU3252	Red Lens Kit (Inc. Lens & night cover)

Adjustable

Shift Lights

Proform's Adjustable RPM Shift Lights feature a graduated dial indicator to allow you to dial in your shift point without a tachometer. Range is 3000 to 12,000 rpm in 200 rpm increments. Does not require separately purchased RPM modules. Some applications may need a late-model tach adapter. **PR67005C** Adjustable Shift Light - Black

Indicator Lights

Painless Indicator Lights

These lights have multiple applications. They can be used as indicator lights, warning light or even as shift lights. Available in three sizes.

Indicator Lights 5/16

Warning Lights

A clean dash is all very well, but for safety reasons we like stuff out where you can see it. Hence our use of these great little 12-volt LED warning lights. Now with small chrome bezels, they are available in four colours.

SOKF017102A	Amber LED Warning Light
SOKF017106B	Blue LED Warning Light
SOKF017101G	Green LED Warning Light
SOKF017100R	Red LED Warning Light

AIRDRIVE WIFI OBD-II MODULE

AutoMeter's new state of the art AirDrive module provides a plug and play solution that wirelessly transmits data through a secure WiFi network from your vehicle to our award winning AirDrive gauges. Program configurable colours, warning points and peak recall functions through AutoMeter's free AirDrive smartphone app. Quick and easy installation is as simple as plugging the control module into the vehicle's OBDII port, mounting and powering gauges, and connecting to the mobile app, eliminating any fear of voiding factory warranties on your new vehicle. The AirDrive system is capable of broadcasting two additional analogue sensor inputs to deliver information not found on your vehicle's data bus. Take plug and play performance to the next level with the AutoMeter AirDrive system.

AU9110 Android & Apple IOS

SIGNAL SPLITTER / ADAPTER, OBD-II

This low profile OBD-II signal splitter / pass through allows for remote location of connections for AutoMeter products like AirDrive, DashLink, DashControl and SmartConnect instrumentation while providing an additional easy to access connection point for other on board devices requiring access to the OBD-II data stream. **AU5323**

GPS KPH SPEEDOMETERS

With internal GPS Antennas.

These speedos need no calibration and no external GPS sender. Just connect power and go. **GPS SPEEDO 225KPH**

 AU5901
 includes mechanical boost gauge, short sweep electric trans temp., and pyrometer gauges.

3-3/8" in-dash Tachometer

Operates on most 4, 6, and 8 cylinder engines and is compatible with most points, standard, and electronic ignitions
3-3/8" 10,000 RPM For In-dash mounting AU5997

3-3/8" in-dash SPEEDOMETER

Works with most factory vehicle speed sensors. Senders are also available for some cable drive applications.

3-3/8" 160 MPH Programmable speedometers AU5988
 work off most factory vehicle speed sensors. Model AU5291 and AU5292 senders are available for some cable drive applications.

GS SERIES PEDESTAL MOUNT TACHS, IN-DASH TACHS & SPEEDOS

5" Shift-Lite TACHOMETER

Operates on most 4, 6, and 8 cylinder engines and is compatible with most points, standard, and electronic ignitions

10,000 RPM Shift-Lite tach: AU3899
 includes external incandescent shift lite with Amber lens

3-3/4" MINI-MONSTER™ Tachometer

Operates on most 4, 6, and 8 cylinder engines and is compatible with most points, standard, and electronic ignitions

10,000 RPM AU3890
 Includes external LED mini quick Lite with amber led

3-3/8" in-dash Tachometer

Operates on most 4, 6, and 8 cylinder engines and is compatible with most points, standard, and electronic ignitions

3-3/8" 10,000 RPM For In-dash mounting AU3897

3-3/8" in-dash SPEEDOMETER

Works with most factory vehicle speed sensors. Senders are also available for some cable drive applications.

3-3/8" 160 MPH Programmable speedometers AU3888
 work off most factory vehicle speed sensors. Model AU5291 and AU5292 senders are available for some cable drive applications.

GS INTER-ACT PACK

Models (AU3832, AU3892, and AU3821)

120o-240o F / 8-18 volts / 0-100 PSI
AU3800
 includes mechanical water temp, voltmeter, and mechanical oil pressure gauges.

GS DIESEL INTER-ACT PACK

Models (AU3804, AU3849, and AU3844)

0-35 PSI / 140o - 300o F / 0o - 1600o F
AU3801
 includes mechanical boost gauge, short sweep electric trans temp., and pyrometer gauges.

AU7201

AMERICAN MUSCLE SERIES

The American Muscle series features a brushed aluminum, windowed face with through the dial white LED lighting and a clear domed lens for a unique style that is equally at home in a muscle car or hotrod.

Street Rod Kit Box

Five piece kit including a 3-3/8" diameter 160mph speedo and 2-1/16" diameter oil pressure, water temperature, volt and fuel level gauges. All gauge senders (except electronic speed sensor), lighting and mounting hardware are included.

AU1202 Five Piece Kit with Electronic MPH Speedo

Tachos, Speedos & Quad Gauges

Electronic speedo is programmable and easily calibrated to suit different tyre sizes and diff ratios. Works with OEM electronic speed sensors. If your trans doesn't have a speed sensor you can use AU5291 for GM applications or AU5292 for Ford applications.

- AU1298 3-3/8" 8000rpm In Dash Tacho
- AU1288 3-3/8" 160mph Electronic Speedo
- AU1288-M 3-3/8" 240kph Electronic Speedo
- AU1289 5" 160mph Electronic Speedo
- AU1295 5" 120mph / 8000rpm Tach / Speedo Combo
- AU1299 5" 8000rpm Tach
- AU1212 5" Quad Gauge (Fuel, Oil, Water, Volts)
- AU1225 5" Quad Gauge (Fuel 0-90, Oil, Water, Volts)

2-1/16" Gauges Short Sweep

To use a fuel level gauge with your original sender, measure the resistance at empty and full and select the matching gauge. 0-90 Ohms suits most aftermarket fuel cells and 240-33 Ohms is for use with the universal fuel level sender, part# AU3262. Oil pressure gauge includes 1/8" NPT sender and 1/4" NPT adapter. Water temperature gauge includes 1/8" NPT sender and 3/8" & 1/2" NPT adapters.

- AU1214 Fuel Level, 0 Ohms E / 90 Ohms F (GM 1965-on)
- AU1215 Fuel Level, 73 Ohms E / 10 Ohms F (Ford & Chrys)
- AU1217 Fuel Level, 840 Ohms E / 33 Ohms F (Universal)
- AU1226 Oil Pressure Electric, 0-100psi
- AU1236 Water Temperature Electric, 100F-250F
- AU1294 Voltmeter, 8-18 Volts
- AU1248 Oil Temp 140-300°F Electric
- AU1249 Trans Temp 100-250°F Electric

2-1/16" Gauges Full Sweep

- AU1209 Fuel Level Programmable
- AU1284 Clock Quartz Movement
- AU1258 Boost Pressure 0-15 psi

Turbosmart 30PSI BOOST GAUGE

The Turbosmart boost gauge is the perfect accessory for any of our Gated Boost Control Valves. Featuring precision mechanical operation, a black face with silver bezel, bright backlighting and a 30psi boost range. All hook-up and panel mounting hardware included. Aluminium dash mounting cup also available.

GBCV Boost Gauge 0-30psi 52mm - 2 1/16" TS-0101-2023
GBCV Boost Gauge Mount Cup 52mm - 2 1/16" TS-0101-2024

GT SERIES

GT Series In-Dash 3-3/8" & 5" Speedometers & Tachometers

When you're ready to put the best instrumentation available in your vehicle, don't settle for slow and inaccurate factory equipment. Our In Dash Tachs and Speedos, feature our famous high performance movements and are designed with seamless dashboard mount in mind for the ultimate driver information center.

- AU8088 3-3/8" 160MPH Electric Speedometer
- AU8097 3-3/8" 8,000RPM Electric Tachometer
- AU8089 5" 160MPH Electric Speedometer
- AU8098 5" 8,000RPM Electric Tachometer

2-1/16" Mechanical Gauges

Bronze bourdon tube 270 degree sweep movements and durable nylon gearing have made these rugged and long lasting gauges a proven high performance favorite for over 50 years. These mechanical gauges require no electrical power for operation making them an ideal choice for racing vehicles with no or low powered electrical systems.

- AU8001 Boost/Vac 30In. Hg/20PSI
- AU8003 Boost/Vac 30In. Hg/30PSI
- AU8004 Boost 35PSI
- AU8005 Boost 60PSI
- AU8021 Oil Pressure 0-100PSI
- AU8031 Water Temp. 140-280°F
- Includes 6ft capillary tubing and 1/2" NPT fitting.
- AU8032 Water Temp. 120-240°F
- Includes 6ft capillary tubing and 1/2" NPT fitting.

2-1/16 Full Sweep Electric

- AU8010 Fuel Level Programmable 0/280 ohms
- AU8044 Pyrometer Kit 0-1600 °F
- AU8053 Oil Pressure 0-100PSI
- AU8055 Water Temperature 100-260°F
- AU8063 Fuel Pressure 0-100PSI
- AU8070 Wideband Air/Fuel Ratio ANALOG
- AU8079 Wideband Air/Fuel Ratio DIGITAL
- AU8091 Voltmeter 8-18 Volts

2-1/16" Short Sweep Electric

- AU8014 Fuel Level (0 ohms E/90ohmsF)
- For most GM US vehicles from 1965 to present.
- AU8015 Fuel Level (73 ohms E/8-12ohms F)
- For most Ford, GMH(74-79) and Chrysler vehicles.
- AU8016 Fuel Level (240 ohms E/33ohms F)
- Use 3262 fuel level sender (not included). Suits GMH 1980 on
- AU8002 Fuel Pressure 0-100PSI
- AU8037 Water Temperature 100-250°F
- AU8048 Oil Temperature 140-300°F
- AU8049 Transmission Temperature 100-250°F
- AU8092 Voltmeter 8-18 Volts

GT Series 5 Piece Gauge Kit

Auto Meter GT Series gauge kits include 5" diameter 160mph Speedo, 2-1/16" diameter oil pressure, water temperature, fuel level & volts & are equipped with cutting-edge, white LED illumination to maximize visibility in all conditions. They feature matte black bezels to help minimize cockpit glare, while aircraft-inspired dials constructed from real carbon fiber.

AU8002 5 Piece Kit With Electric MPH Speedo

GM Series By Autometer

GM BOWTIE LOGO GAUGES

Monitor your vehicle's vital signs with these rugged, precise gauges—while flying the Chevy Bowtie flag. A wide array of instruments in several styles is offered to better suit your vehicle. GM Performance Parts-Logo gauges are liquid-filled and designed for the rigors of high performance street use or racing. All gauges are intended for 12-volt electrical systems and feature a matte black bezel and 12-volt backlighting. Mounting hardware is included unless otherwise noted. These gauges are made by Autometer and work with all Autometer parts and accessories.

SPORT-COMP Silver

5" & 3-3/4" Sport Comp Silver Tachometers

The 3911 Sport Comp "Silver" tachometer with Shift Lite includes Auto Meter's Dial In Exactness. This feature actually utilizes the tach's fluorescent red pointer to indicate the chosen shift RPM. By depressing the Push To Display button the shift point RPM is indicated by the tach pointer. Then by turning the Shift Set knob, the pointer sweeps up or down until the preferred RPM is selected

- AU3910 10000RPM Silver Tachometer.
- AU3911 10000RPM Silver Tachometer with Shift Lite
- AU3781 3-3/4" 8000RPM Tachometer

3-3/4" Pro-Comp Silver Memory Tach

Pro-Comp Memory tachometers include a rugged air core meter movement for superior monitoring accuracy. Models are available for different racing ignitions in both Monster and Standard sizes. They include peak RPM memory recall which some utilise a remote mounted switch. Race teams can review the highest RPM attained to help select the optimum gear ratios.

- AU6604 10,000RPM Silver Tach (Std./Elec)

2-5/8" Sport Comp Silver Mini Tachometers

This Sport Comp mini tachometer is made with rugged air core meter movement for quick accurate response. With proven performance and reliability it fits into tight areas and matches the popular silver look of the Ultra-Lite series.

- AU3707 2-5/8" 8,000RPM Silver Tach
- AU3788 2-5/8" 5,000RPM Silver Tach

SPORT-COMPII INTER-ACT PACK

Models (AU3632, AU3692, & AU3621)
120°-240° F / 8-18 volts / 0-100 PSI

AU3600

Includes Mechanical water temp, voltmeter, and mechanical oil pressure gauges

SPORT-COMP II DIESEL INTER-ACT PACK

Models (AU3604, AU3649, & AU3644)
0-35 PSI / 100° - 250° F / 0° - 1600° F

AU3601

includes mechanical boost gauge, short sweep electric trans temp., and pyrometer gauges.

AU4900

Includes Mechanical water temp, voltmeter, and mechanical oil pressure gauges

ULTRA-LITE II DIESEL INTER-ACT PACK

Models (AU4904, AU4949, & AU4944)
0-35 PSI / 100° - 250° F / 0° - 1600° F

AU4901

includes mechanical boost gauge, short sweep electric trans temp., and pyrometer gauges.

ULTRA-LITE

5" Silver Tachometers

The Pro-Comp 2 tachs include a two stage shift light. The bright red Quick Lite and the Dial In Exactness feature give instantaneous notice of shift points to provide faster response times during shifts. High and fast revving cars utilise the Dual Range models which feature a dial face that dramatically expands critical racing RPM range. Peak RPM memory recall reviews the highest RPM achieved during a race.

ULTRA-LITE PEAK MEMORY & WARNING GAUGES

Developed in conjunction with top nascar teams, these gauges help drivers focus on the track, and provide critical data to the crew. Features include built-in, attention-grabbing, user-programmable red led warning lights and one-touch peak memory recall. boost gauges recall peak boost for easy review after a pass. all other pressure gauges recall lowest pressure drop and temperature gauges provide peak data on temperature spikes. Ideal for all forms of racing and high performance street applications.

2-5/8" Silver Face Liquid Filled Gauges

The toughest gauge in racing, Liquid Filled Gauges from Auto Meter are available in the hottest racing look. The silver LFG's are designed to match the anodised aluminium look of the Ultra-Lite Series. They provide the strength and durability you have come to expect from Auto Meter. Liquid Filled Gauges are designed to withstand the harshest race environments.

AU4602	Blower 0-60PSI
AU4603	Boost 30In. Hg/30PSI
Gauges include 1/8" & 1/4" NPT fittings, 6ft nylon tubing.	
AU4611	Fuel Pressure 0-15PSI. Must be mounted outside of vehicle. Requires braided stainless steel tubing and mounting cup.
AU4612	Fuel Pressure 0-100PSI. Must be mounted outside of vehicle. Requires braided stainless steel tubing and mounting cup.
AU4621	Oil Pressure 0-100PSI
AU4622	Oil Pressure 0-200PSI
Gauges include 1/8" & 1/4" NPT fittings, 6ft nylon tubing	
AU4626	Brake Pressure 0-2000PSI

Includes 6ft capillary, and 1/2" NPT fitting	
AU4631-SP4	Oil Temperature 140-280°F
Includes 4ft capillary, and 1/2" NPT fitting	

5" Ultra Nite Tach Glow In The Dark

AU4594
5" Ultra-Nite Tach,
Memory 0-10,000 rpm
Memory Tach features recessed switch plate design. Operates on 4,6 or 8 cylinder engines. For standard/electronic and most high performance electronic racing ignitions.

2-5/8" Ultra Nite Glow In The Dark Gauges

Easily identified by their anodised blue exterior, these Ultra-Nite gauges offer unique features needed in many forms of racing. The luminescent dial glows at night for dimly lit tracks when no battery is available to light conventional gauges. A sealed, water resistant case keeps moisture and debris out and light weight anodised aluminium fittings on the temperature gauges are ideal for sprint car racing. These are made for harsh environments where light weight is desired.

AU4511	Fuel Pressure 0-15PSI Must be mounted outside of vehicle. Requires stainless steel tubing and mounting cups.
AU4521	Oil Pressure 0-100PSI*
AU4523	Oil Pressure 0-150PSI
AU4521 & AU4523 Inc. 1/8" & 1/4" NPT fittings, 6ft nylon tubing.

AU4533	Water Temp 140-280°F Includes 4ft capillary tubing.
AU4535	Water Temp 140-280°F Includes 3ft capillary tubing.
AU4541	Oil Temp 140-280°F
Inc. 6ft capillary tubing, 1/2" NPT alum. fitting.	

AUTOMETER HELPFUL HINTS

In all Gen 3 Holden applications Tacho calibration should be set to 4cylinder for correct operation.

When it comes to matching your stock sender to new fuel gauges getting the correct resistance is the key.

GM Holden sender units up to early HQ are 0 - 30 ohms

Late HQ up to HZ also including LH & LX torana are 73 - 10 ohms

WB - VR Holden are 282 - 40 ohms

All Ford Falcons up to XF are 73 - 10 ohms

If your not sure what you have get your auto electrician to check the resistance of your fuel sender.

Pro-Comp Pro Dash Display

Get up-to-the-second data with Pro-Comp Pro dash display systems from Auto Meter. Their driver information centers are packed with high performance movements and are designed for a seamless in-dash look. Both Pro-Comp street dash and race dash models are built with full-sweep stepper meter movement for precision accuracy. Auto Meter Pro dash systems have integrated programmable warning lights and an LCD message display for temperatures, pressure, battery voltage, and fuel levels. Pro-Comp race displays have no provision for fuel level or odometer readings, but their playback recording mode provides up to two hours—or 15 runs—of continual dash sensor input data that you can save for review and analysis.

All Pro dash systems are water, dust, dirt, shock, and vibration-proof, with LCD backlit displays for excellent visibility in bright sunlight or complete darkness. For ease of installation, a robust professional wiring harness is included. Auto Meter Pro-Comp Pro dash display systems are great for the street and perfect for the strip. They offer superior build, programmable integrated alarms, a signature analog tachometer, and high-visibility digital readouts.

AU6001	Street 0-8000 rpm Single Range

AU5431 Water Temp. 140-280°F
Includes 6ft capillary tubing & 1/2" NPT fitting.
AU5432 Water Temp. 120-240°F
Includes 6ft capillary tubing & 1/2" NPT fitting.
AU5433 Water Temp. 120-240°F
Includes 12ft capillary tubing & 1/2" NPT fitting.
AU5433SP Water Temp. 120-240°F
Includes 20ft capillary tubing & 1/2" NPT fitting.
AU5435 Temp. 140-340°F
Includes 8ft capillary tubing & 1/2" NPT fitting.
AU5441 Oil Temp. 140-280°F
Includes 6ft capillary tubing & 1/2" NPT fitting.
AU5443 Oil Temp. 140-280°F
Includes 12ft capillary tubing & 1/2" NPT fitting.
AU5443SP Oil Temp. 140-280°F
Includes 20ft capillary tubing & 1/2" NPT fitting.
AU5451 Temp. 140-280°F
Includes 8ft capillary tubing & 1/2" NPT fitting.
AU5451 Trans Temp. 140-280°F
Includes 8ft capillary tubing and 1/2" NPT fitting.
AU5484 Vacuum 30In. Hg*
 *Note: Includes 6ft nylon tubing 1/8" & 1/4" NPT fittings.
 **Note: Require braided stainless steel line

Auto gage

Auto gage 5" Shift-Lite Monster Tachs

These economical tachs offer race inspired style with the trademark Auto Meter Monster look. Auto Meter's rubber lined shock strap provides protection against vibration while mounting base allows mounting in any location. Auto Meter has added the trademark large Shift-Lite to the Autogage tachometers. This bright amber light signals shift points with "Dial-In-Exactness". By turning the "Shift Set" knob on the tach, the pointer sweeps up or down until the preferred RPM is selected. The Shift-Lite on models 233911, 233904 and 233905 can be removed from the Shock Strap and mounted in a convenient location. The 233903 Shift Lite is mounted on the tach face. Tachometers operate on 4, 6 or 8 cylinder engines with most standard and high performance electronic ignitions.

- AU233903** 10,000 RPM Shift Lite Tachometer
Shift Lite on the Shield
AU233904 10,000 RPM Shift Lite Tachometer
With external Shift Lite
AU233905 8,000 RPM Shift Lite Tachometer
With external Shift Lite
AU233907 10,000 RPM SILVER Memory Tachometer
Without Shift Lite
AU233911 10,000 RPM SILVER Shift Lite Tachometer
With external Shift Lite

5" Autogage Monster Memory Tachometers

Autogage Memory Tachometers with Peak RPM memory feature. Allows you to recall the highest RPM achieved. Helps point out engine over-revving and aids in setting optimum gear ratios. Rubber lined shock strap provides protection against vibration while mounting base allows mounting in any location. Bright amber Shift Lite on model 233906 signals shift points with "Dial In Exactness". By turning the Shift Set knob, the pointer sweeps up or down until preferred RPM is selected. Shift Lite can be removed from Shock Strap and mounted in a convenient location.

- AU233902** 10,000 RPM Memory Tachometer
AU233906 10,000 RPM Memory Shift Lite Tachometer
With external Shift Lite

3-3/4" Tachometers

These American made tachometers in traditional chrome or modern black, they include a new rugged air core meter movement for maximum accuracy and quick response. And when the sun goes down, the through dial illumination and lit pointer provide excellent night time legibility. A red line shift marker slides to any preferred position as a reminder to help prevent engine over revving. Mounting base is specially designed for easy installation and adjusts for different heights.

- AU2300** 8,000 RPM Black Tachometer
Tach features a contemporary satin black case

- AU2301** 8,000 RPM Chrome Tachometer
Polished chrome gives tach a traditional look Tachometer

Shift-Lite Tachometer

Helps optimise driving performance when you bring your street car to the race track. The critical shift point is dialed in with an adjustable knob on the tach face. When the engine revs to this pre-selected rpm, a bright red light on the dial comes on to indicate the shift.

- AU2302** 8,000 RPM Shift-Lite Tachometer
AU2309 8,000RPM Black Tach w/external Shift-Lite

3-3/4 White Face Tachometers

Auto Meter now offers these popular American made tachometers with a white face and black pointer for the street performance enthusiast in the popular Auto gage series.

- AU2303** 8,000 RPM Black Tachometer
AU2304 8,000 RPM Chrome Tachometer

Mini Tachometer

Perfect for those hard to fit interiors, these compact instruments can maximise driver awareness and safety. The tachometer installs easily and comes in 6,000 or 8,000 rpm. The miniature gauges come individually or in popular console packages.

- AU2305** 8,000 RPM Black Mini Tach
AU2306 6,000 RPM Black Mini Tach

Low RPM range offers maximum dial legibility. Operates on 4, 6 & 8 cyl engines with most factory or aftermarket ignitions.

1-1/2" Gauges & 1-1/2" Gauge Consoles

The electric gauge versions provide simple installation and include quick glance colour coded dials. The mechanical gauges allow a wider, full sweep dial. Through the dial lighting enhances the gauge's night time readability.

- AU2352** Mech. Water Temp. 130-280°F
Inc. 6ft. capillary tubing 1/2" and 3/8" NPT fittings
AU2354 Electric Oil Pressure 0-100PSI
Includes elec. sender 1/8" and 1/4" NPT fittings
AU2355 Elec. Water Temp. 100-280°F
Inc. 1/8" elec. sender, 3/8" and 1/2" NPT fittings
AU2356 Electric Voltmeter 8-18 Volts
AU2391 Electrical Mini Gauge Console
Oil, water, volt. Tubing, fittings & hardware included. Gauges feature colour coded bands for easy and accurate monitoring
AU2396 Mechanical Mini Gauge Console Oil, water, volt.
Tubing, fittings & hardware included

2-1/16" Auto Gauges

- AU2360** Mechanical Oil Pressure 0-100PSI
Inc. 6ft. nylon tubing, 1/8" and 1/4" NPT fittings
AU2361 Mech. Water Temp. 130-280°F
Inc. 6ft. capillary tubing 1/2" and 3/8" NPT fittings
AU2362 Electrical Voltmeter 10-16 Volts
 CAUTION: Use ammeter only on alternators with maximum output of 60 amps or less. Higher output alternators must use voltmeter. Ammeter must be installed by experienced mechanic.

2-1/16" Mechanical Gauge Console

When economical price and accuracy are most important, these short sweep mechanical gauges provide the answer. Sold in either console packages or individually, these mechanical gauges include contoured steel mounting panels and red and green light bulb covers for a custom look.

AU2345 Black 2-Gauge Console (Oil, Water)

Gauges in 5 1/8" long contoured steel panel

AU2347 Black 3 Gauge Console (Oil, Water, Amp)

See CAUTION note. Gauges in 7 1/2" long contoured steel panel. 10 Gauge wire required for Amp gauge hookup.

AU2348 Black 3 Gauge Console (Oil, Water, Volt)

Gauges in 7 1/2" long contoured steel panel

AU2349 3 Gauge Console (Oil, Water, Volt)

Chrome, 7 1/2" long contoured steel panel

For optimum styling and accurate readings these popular gauges are the wise choice for highway driving. A black bezel surrounds the easy to read, full sweep dial face. Through dial lighting with red and green light bulb covers included enhance night time driving.

2-1/16" Full Sweep Mechanical Gauge Console

AU2392 Black 2-Gauge Console (Oil, Water)

Gauges in 5" long console

AU2393 3-Gauge Console (Oil, Amp, Water) Gauges in black metal panel.

10 Gauge wire required for Amp gauge hook up.

AU2397 3-Gauge Console (Oil, Volt, Water)

Gauges in black metal panel.

2-1/16" Mechanical Gauge Steel Panels

AU2332 Oil Pressure 0-100PSI

Inc. 6ft. nylon tubing 1/8" and 1/4" NPT fittings

AU2333 Water Temperature 100-280°F

Inc. 6ft. capillary tubing 1/2" & 3/8" NPT Fittings

AU2337 Vacuum Gauge 30 In. Hg

Inc. 6ft. nylon tubing and universal T Fitting

2-1/16" Mechanical White Gauge Consoles

White face gauge consoles feature contoured steel mounting panels along with red and green light bulb covers for a custom look at night. When economical price and accuracy are important, the short sweep mechanical consoles are the right choice. For optimum styling and accuracy, install the easy to read, full sweep gauge consoles.

AU2323 Black 2-Gauge Console, Oil/Water

Gauges in 5-1/8" long contoured steel panel

AU2324 Black 3-Gauge Console, Oil/Water/Volt

Gauges in 7-1/8" long contoured steel panel

AU2325 Chrome 3-Gauge Console Oil/Water/Volt

Gauges in 7-1/8" long contoured steel panel

AU2326 Black 2-Gauge Console, Oil/Water Full Sweep

Gauges in 5-1/8" long contoured steel panel

AU2327 Black 3-Gauge Console, Oil/Water/Volt Full Sweep

Gauges in 7-1/8" long contoured steel panel

2-5/8" Mechanical White Face Gauge Console

Full sweep 2-5/8" size mechanical gauges. They are offered with a white dial face, providing an easy to read modern look, red and green light bulb covers are included to create a custom dash look at night.

AU2328 Black Console, Oil/Water/Volt

Gauges in 9-1/8" long black panel

AU2329 Chrome Console, Oil/Water/Volt

Gauges in 9-1/8" long chrome panel

2-5/8" Mechanical Gauges Steel Consoles

AU2394 Black Console (Oil, Amp, Water)

10 Gauge wire required for Amp gauge hook up.

AU2395 Chrome Console (Oil, Amp, Water)

10 Gauge wire required for Amp gauge hook up.

AU2398 Black Console (Oil, Volt, Water)

10 Gauge wire required for Amp gauge hook up.

AU2399 Chrome Console (Oil, Volt, Water)

2-5/8" Mechanical Gauges

Full sweep mechanical gauges. Can be mounted in chrome or black cups, under or in dash for a custom look. All individual gauges include an optional chrome plated bezel. Through the dial lighting with optional red and green light bulb covers for enhance night time driving.

AU2310 Boost-Vac/Pressure

30In.Hg. Vacuum/20psi Pressure.

Includes 6ft nylon tubing, 1/8" and 1/4" NPT Fittings

AU2311 Fuel Pressure 0-15PSI

Requires braided stainless steel tubing and mounting cup. Gauge

MUST be mounted outside vehicle for safety.

AU2312 Oil Pressure 0-100PSI

Inc. 6ft nylon tubing, 1/4" and 1/8" NPT fittings.

AU2313 Water Temperature 100-280°F

Inc. 6ft nylon tubing, 3/8" and 1/2" NPT fittings.

AU2314 Oil Temperature 100-340°F

Inc. 6ft capillary tubing 1/2" and 3/8" NPT fittings.

AU2315 Fuel Level

(73 ohms E/8-12 ohms F) Most Ford and Chrysler vehicles.

AU2316 Fuel Level

(0 ohms E/90 ohms F) For most GM USA vehicles. NOTE 2315 fuel level gauge connects to stock sender in fuel tank. Measure resistance (ohms) with an ohmmeter when tank is empty and full.

AU2317 Vacuum Gauge 30In.Hg

Includes 6ft nylon tubing and T-Fittings.

AU2319 Voltmeter 10-16 Volts (Electrical)

SERIES™

Include a black bezel design similar to the unique design originally introduced in the Sport Comp Series. The compact size and matching black mounting cups make these gauges the perfect choice in any application.

3-3/4" Street Tachs

These classic, steel case tachometers include a fast action air core meter movement that measures engines to 8,000rpm. A redline shift marker can be adjusted to help maximise horsepower and prevent damage from over-revving.

AU2894 8,000 RPM Black Street Tach

5" In-Dash Tachs & Speedos

AU2685 160 MPH Electrical Speedo

AU2691 160 MPH Mechanical Speedo

AU2677 8,000 RPM Tacho

2-1/16" & 2-5/8" Mini Tachs

A rugged look and quality, all steel construction make these compact tachometers ideal for hard to fit interiors. The air core meter provides reliable accuracy on choices of four, six or eight thousand RPM dials. Model 2890 is ideal for V8 pickup and vans because it allows you to use almost the full dial range as you drive. These tachometers operates on 4, 6 or 8 cylinder engines with factory and most aftermarket ignitions. The 2-1/16" models are perfect for in-dash mounting.

AU2888 2-5/8" Diesel Mini Tachometer 5,000 RPM

Full sweep dial, Inductive pickup straps to alternator. 12 Volt

AU2890 2-5/8" 4,000 RPM Low Rev Black Mini Tach

AU2891 2-5/8" 6,000 RPM Black Mini Tach

AU2892 2-5/8" 8,000 RPM Black Mini Tach

3-3/8" Tachs & Speedos

AU2692 120MPH Mechanical Speedo

AU2694 160MPH Mechanical Speedo

AU2680-M 3-3/8" 225kph GPS Speedo

AU2689-M 190 KPH Electrical Speedo

All Speedometers come with Trip Odometer

2-1/16" & 3-3/8" Gauges & Tachometers

AU2697 2-1/16" 5,000RPM Low Rev Electronic Tach

AU2698 2-1/16" 8,000RPM Electronic Tach

AU2699 3-3/8" 8,000RPM Electronic Tach

AU2681 2-1/16" Digital Boost Controller 30 in hg/30 psi

AU2688 3-3/8" 0-160MPH Electronic Speedometer

Tachometers operate on 4, 6 or 8 cylinder engines, most factory and aftermarket ignitions.

2-1/16" Mechanical Gauges

Note: *Includes 6ft nylon tubing 1/8" & 1/4 NPT fittings.

AU2657 Pressure Gauge, 0-200 PSI

AU2601* Boost 30in Hg Vac/20PSI

AU2614* Boost 30in Hg Vac/30PSI

CAUTION Use only on alternators with maximum output of 60 Amps or less. Higher output alternators MUST use voltmeter. Ammeter MUST be installed by experienced mechanic.
- AU2585 Clock Quartz Movement**
Includes second hand. Operates on 12 volts.
- AU2587 Hourmeter 8-32 Volts DC input**
Non-re-settable meter with Quartz accuracy for recording up to 100,000 hours
- AU2592 Voltmeter 8-18 Volts**

DATA ACQUISITION

Allows you to record and playback up to 80 seconds of RPM activity to analyse your shift points and improve consistency. Connect to any Autometer tach to turn it into a playback tach and view recorded data on the gauge face. Also usable as a shift light controller.

Features:

- 80 Second Playback
- Digital RPM Display
- Super Bright LED Shift Light
- Easy, 3 Button User Programmable Interface
- Single Programmable Shift Point
- Four Programmable Shift Points and Launch Light
- Progressive Colour Change Shift Lights
- Custom Shift Light Colour

Tach Facts Software

Tach facts software allows each stored run from the Ultimate II to be downloaded to a PC for review and analysis. Zoom In feature allows target areas of the graph to be expanded both horizontally and vertically for more accurate information.

AU6890 Tach Facts Software

Software sent on CD and requires a minimum of a PentiumII processor or equivalent. Tach Facts works on Windows 98, 95, 2000, NT Millennium or XP. Included with dual channel tachs.

Pit Road Speed Tach Programmer

Required for optimal (1 RPM Resolution) Programming of Pit Road Speed and Shift Light
Functionality of the #6847 Elite Series Pit Road Speed Tachometers.

AU9119 Pit Road Speed Tach Programmer

Note: All Playback models operate on 4, 6, or 8 cylinder engines with standard and electronic racing ignitions.

5" Sport-Comp Playback Tachometer

- AU3964 9000RPM Sport Comp Silver Playback Tach**
- AU3965 11000RPM Sport Comp Silver Playback Tach**
- AU3966 9000RPM Sport Comp Black Playback Tach**
- AU3967 11000RPM Sport Comp Black Playback Tach**
- Review your entire run right on the tach, right at the track for a detailed view of your car's performance under extreme race conditions. The replay can be viewed on the tachometer in 1/3 real time, and enhanced using the fast forward and fast reverse function. Data is recorded at a rate of 50 samples per second, for optimum accuracy. Four shift points can be selected, and an Auto Meter shift light may be added to increase driver consistency.

CLASSIC & HOT ROD GAUGES

km/h Street Rod Kits for Australia

with programmable km/h speedo

- AU1302-M Arctic White 5 Piece Kit**
- AU1421-M Designer Black 5 Piece Kit**
- AU1602-M Old Tyme White 5 Piece Kit**
- AU1809-M Antique Biege 5 Piece Kit**

ARCTIC WHITE SERIES

The Arctic White series features a brilliant white face with an easy to read modern dial. A fluorescent red pointer is seen through a clear domed lens with a polished chrome bezel.

AU1303

Street Rod Kit Boxes

Five piece kits include a 3-1/8" diameter 120mph or 190kph speedo and 2-1/16" diameter oil pressure, water temperature, volt and fuel level gauges. Quad gauge kits include the quad gauge with oil pressure, water temperature, volt and fuel level in one gauge and a 120mph electronic speedo or electronic tach / speedo combo gauge and are available in 3-3/8" or 5" diameter. All gauge senders (except electronic speed sensor), lighting and mounting hardware are included.

- AU1300 Five Piece Kit with Mechanical MPH Speedo**
- AU1302 Five Piece Kit with Electronic MPH Speedo**
- AU1302-M Five Piece Kit with Electronic KPH Speedo**
- AU1308 3-3/8" Quad Gauge & Electronic Speedo Kit**
- AU1309 3-3/8" Quad Gauge & Electronic Tach/Speedo Kit**
- AU1303 5" Quad Gauge & Electronic Speedo Kit**

Tachos, Speedos & Quad Gauges

Electronic speedos are programmable and are easily calibrated to suit different tyre sizes and diff ratios. Works with OEM electronic speed sensors. If your trans doesn't have a speed sensor you can use AU5291 for GM applications or AU5292 for Ford applications.

- AU1787 3-1/8" 120MPH Electric Programmable Speedo**
- AU1796 3-1/8" 120MPH Mechanical In Dash Speedo**
- AU1798 3-1/8" 7,000RPM Electric In Dash Tach**

2-1/16" Gauges

- AU1715 Fuel Level (0 Ohms E/90 Ohms F)**
For most GM vehicles from 1965 to present.
- AU1716 Fuel Level (73 Ohms E/8-12 Ohms F)**
For most Ford and Chrysler vehicles.
- AU1717 Fuel Level (240 Ohms E/33 Ohms F)**
Use 3262 fuel level sender. Commodore
- AU1718 Fuel Level (0 Ohms E/30 Ohms Full)**
For most GMH vehicles before 1965.
- AU1727 Oil Pressure 0-100PSI**
Includes 1/8" elec. sender and 1/4" NPT adaptor
- AU1737 Water Temp. 100-250°F**
Inc 1/8" elec. sender, 3/8" & 1/2" NPT adapters
- AU1785 Clock Quartz movement**
- AU1791 Voltmeter 8-18 Volts**

AMERICAN PLATINUM SERIES

Auto Meter's American Platinum series offers a clean brushed aluminium dial face and black nickel bezel surrounding a clear domed lens. This is accented by an aggressive number style and pointer for a powerful look deserving of street rods.

Street Rod Kit Boxes

Five piece kits including a 3-1/8" diameter 120mph speedo and 2-1/16" diameter oil pressure, water temperature, volt and fuel level gauges. All gauge senders (except electronic speed sensor), lighting and mounting hardware are included.

- AU1901 Five Piece Kit with Mechanical MPH Speedo**
- AU1902 Five Piece Kit with Electronic MPH Speedo**

Tachos & Speedos

Electronic speedos are programmable and are easily calibrated to suit different tyre sizes and diff ratios. Works with OEM electronic speed sensors. If your trans doesn't have a speed sensor you can use AU5291 for GM applications or AU5292 for Ford applications.

- AU1994 2-1/16" 7000rpm In Dash Mini Tacho**
- AU1995 3-1/8" 7000rpm In Dash Tacho**
- AU1988 3-1/8" 120mph Electronic Speedo**
- AU1993 3-1/8" 120mph Mechanical Speedo**

2-1/16" Gauges

To use a fuel level gauge with your original sender, measure the resistance at empty and full and select the matching gauge. 0-90 Ohms suits most aftermarket fuel cells and 240-33 Ohms is for use with the universal fuel level sender, part# AU3262. Oil pressure gauge includes 1/8" NPT sender and 1/4" NPT adapter. Water temperature gauge includes 1/8" NPT sender and 3/8" & 1/2" NPT adapters.

AU1904	Fuel Level, 0 Ohms E / 90 Ohms F (GM 1965-on)
AU1905	Fuel Level, 73 Ohms E / 10 Ohms F (Ford & Chrys)
AU1906	Fuel Level, 240 Ohms E / 33 Ohms F (Universal)
AU1907	Fuel Level, 0 Ohms E / 30 Ohms F (pre-1965 GM)
AU1928	Oil Pressure Electric, 0-100psi
AU1938	Water Temperature Electric, 100-250F
AU1986	Clock, Quartz Movement
AU1992	Voltmeter, 8-18 Volts

OLD TYME WHITE SERIES

The Old Tyme White series features a timely, nostalgic look with the accuracy of a modern air core meter. Bold numbers on the white coloured face are accented by a chrome bezel, antique black pointer and a clear domed lens.

Street Rod Kit Boxes

Five piece kits include a 3-1/8" diameter 120mph or 190kph speedo and 2-1/16" diameter oil pressure, water temperature, volt and fuel level gauges. Quad gauge kits include the quad gauge with oil pressure, water temperature, volt and fuel level in one gauge and a 120mph electronic speedo or electronic tach / speedo combo gauge and are available in 3-3/8" or 5" diameter. All gauge senders (except electronic speed sensor), lighting and mounting hardware are included.

AU1601	Five Piece Kit with Mechanical MPH Speedo
AU1602	Five Piece Kit with Electronic MPH Speedo
AU1602-M	Five Piece Kit with Electronic KPH Speedo
AU1600	3-3/8" Quad Gauge & Electronic Speedo Kit
AU1620	3-3/8" Quad Gauge & Electronic Tach/Speedo Kit
AU1603	5" Quad Gauge & Electronic Speedo Kit

Tachos, Speedos & Quad Gauges

Electronic speedos are programmable and are easily calibrated to suit different tyre sizes and diff ratios. Works with OEM electronic speed sensors. If your trans doesn't have a speed sensor you can use AU5291 for GM applications or AU5292 for Ford applications.

AU1694	2-1/16" 7000rpm In Dash Mini Tacho
AU1695	3-1/8" 7000rpm In Dash Tacho
AU1688	3-1/8" 120mph Electronic Speedo
AU1688-M	3-1/8" 190kph Electronic Speedo
AU1693	3-1/8" 120mph Mechanical Speedo
AU1690	3-3/8" 8000rpm In Dash Tacho
AU1680	3-3/8" 120mph Electronic Speedo
AU1681	3-3/8" 120mph / 8000rpm Tach / Speedo Combo
AU1613	3-3/8" Dual Combo (Fuel, Oil)
AU1630	3-3/8" Dual Combo (Water, Volts)
AU1612	3-3/8" Quad Gauge (Fuel, Oil, Water, Volts)
AU1699	5" 8000rpm In Dash Tacho
AU1689	5" 120mph Electronic Speedo

AU1610	5" Quad Gauge (Fuel, Oil, Water, Volts)
--------	---

2-1/16" Gauges

To use a fuel level gauge with your original sender, measure the resistance at empty and full and select the matching gauge. 0-90 Ohms suits most aftermarket fuel cells and 240-33 Ohms is for use with the universal fuel level sender, part#AU3262. Oil pressure gauge includes 1/8" NPT sender and 1/4" NPT adapter. Water temperature gauge includes 1/8" NPT sender and 3/8" & 1/2" NPT adapters.

AU1604	Fuel Level, 0 Ohms E / 90 Ohms F (GM 1965-on)
AU1605	Fuel Level, 73 Ohms E / 10 Ohms F (Ford & Chrys)
AU1606	Fuel Level, 240 Ohms E / 33 Ohms F (Universal)
AU1607	Fuel Level, 0 Ohms E / 30 Ohms F (pre-1965 GM)
AU1628	Oil Pressure Electric, 0-100psi
AU1621	Oil Pressure Mechanical 0-100psi
AU1638	Water Temperature Electric, 100°-250°F
AU1686	Clock, Quartz Movement
AU1692	Voltmeter, 8-18 Volts

OLD TYME WHITE II SERIES

The Old Tyme White II series features the same nostalgic look as the Old Tyme White series with white LED full dial lighting for enhanced night time visibility. Bold numbers on the white coloured face are accented by a chrome bezel, antique black pointer and a clear domed lens.

OLD TYME WHITE II SERIES

Street Rod Kit Boxes

The five piece kit includes a 3-1/8" diameter 120mph electronic speedo and 2-1/16" diameter oil pressure, water temperature, volt and fuel level gauges. The quad gauge kit includes a 5" diameter quad gauge with oil pressure, water temperature, volt and fuel level in one gauge and a 5" diameter 8000rpm / 120mph electronic tach / speedo combo gauge. All gauge senders (except electronic speed sensor), lighting and mounting hardware are included.

AU1200	Five Piece Kit with Electronic MPH Speedo
AU1203	5" Quad Gauge & Tach / Speedo Combo Kit

Tachos, Speedos & Quad Gauges

Electronic speedos are programmable and are easily calibrated to suit different tyre sizes and diff ratios. Works with OEM electronic speed sensors. If your trans doesn't have a speed sensor you can use AU5291 for GM applications or AU5292 for Ford applications.

AU1297	3-3/8" 8000rpm In Dash Tacho
AU1287	3-3/8" 120mph Electronic Speedo
AU1290	5" 8000rpm / 120mph Tach / Speedo Combo
AU1210	5" Quad Gauge (Fuel, Oil, Water, Volts)

2-1/16" Gauges

Fuel level gauge AU1216 is for use with the universal fuel level sender, part# AU3262. Oil pressure gauge includes 1/8" NPT sender and 1/4" NPT adapter. Water temperature gauge includes 1/8" NPT sender and 3/8" & 1/2" NPT adapters.

AU1216	Fuel Level, 240 Ohms E / 33 Ohms F
AU1227	Oil Pressure Electric, 0-100psi
AU1237	Water Temperature Electric, 100°-250°F
AU1292	Voltmeter, 8-18 Volts

DESIGNER BLACK II SERIES

The Designer Black II series features the same styling as the Designer Black series with through the dial white LED lighting and lighted pointer for enhanced night time visibility. The clear domed lens surrounded by a chrome (or black chrome) bezel makes a provocative statement to custom interiors.

Street Rod Kit Boxes

The five piece kit includes a 3-1/8" diameter 120mph electronic speedo and 2-1/16" diameter oil pressure, water temperature, volt and fuel level gauges. The quad gauge kit includes a 5" diameter quad gauge with oil pressure, water temperature, volt and fuel level in one gauge and a 5" diameter 8000rpm / 120mph electronic tach / speedo combo gauge. All gauge senders (except electronic speed sensor), lighting and mounting hardware are included.

AU1201	Five Piece Kit with Electronic MPH Speedo
AU1204	5" Quad Gauge & Tach / Speedo Combo Kit

Tachos, Speedos & Quad Gauges

Electronic speedos are programmable and are easily calibrated to suit different tyre sizes and diff ratios. Works with OEM electronic speed sensors. If your trans doesn't have a speed sensor you can use AU5291 for GM applications or AU5292 for Ford applications.

AU1296	3-3/8" 8000rpm In Dash Tacho
AU1286	3-3/8" 120mph Electronic Speedo
AU1291	5" 8000rpm / 120mph Tach / Speedo Combo
AU1211	5" Quad Gauge (Fuel, Oil, Water, Volts)

2-1/16" Gauges

Fuel level gauge AU1206 is for use with the universal fuel level sender, part# AU3262. Oil pressure gauge includes 1/8" NPT sender and 1/4" NPT adapter. Water temperature gauge includes 1/8" NPT sender and 3/8" & 1/2" NPT adapters.

AU1206	Fuel Level, 240 Ohms E / 33 Ohms F
AU1228	Oil Pressure Electric, 0-100psi
AU1238	Water Temperature Electric, 100°-250°F
AU1293	Voltmeter, 8-18 Volts

DESIGNER BLACK SERIES

The designer black series is a popular choice among street prodders. The dials are easy to read with modern dial graphics and a fluorescent red pointer. The clear domed lens surrounded by a chrome (or black chrome) bezel makes a provocative statement to custom interiors.

Street Rod Kit Boxes

Five piece kits include a 3-1/8" diameter 120mph or 190kph speedo and 2-1/16" diameter oil pressure, water temperature, volt and fuel level gauges. Quad gauge kits include the quad gauge with oil pressure, water temperature, volt and fuel level in one gauge and a 120mph electronic speedo or electronic tach / speedo combo gauge and are available in 3-3/8" or 5" diameter. All gauge senders (except electronic speed sensor), lighting and mounting hardware are included.

AU1400	Five Piece Kit with Mech. MPH Speedo (Black Bezel)
AU1420	Five Piece Kit with Mechanical MPH Speedo
AU1421	Five Piece Kit with Electronic MPH Speedo
AU1421-M	Five Piece Kit with Electronic KPH Speedo
AU1408	3-3/8" Quad Gauge & Electronic Speedo Kit
AU1409	3-3/8" Quad Gauge & Electronic Tach/Speedo Kit
AU1403	5" Quad Gauge & Electronic Speedo Kit

Tachos, Speedos & Quad Gauges

Electronic speedos are programmable and are easily calibrated to suit different tyre sizes and diff ratios. Works with OEM electronic speed sensors. If your trans doesn't have a speed sensor you can use AU5291 for GM applications or AU5292 for Ford applications.

AU5291	GM applications or AU5292 for Ford applications.
AU1477	2-1/16" 7000rpm In Dash Mini Tacho
AU1478	3-1/8" 7000rpm In Dash Tacho

AU1588 3-1/8" 120mph Electronic Speedo
AU1593 3-1/8" 120mph Mechanical Speedo

2-1/16" Gauges

To use a fuel level gauge with your original sender, measure the resistance at empty and full and select the matching gauge. 0-90 Ohms suits most aftermarket fuel cells and 240-33 Ohms is for us with the universal fuel level sender, part# AU3262. Oil pressure gauge includes 1/8" NPT sender and 1/4" NPT adapter. Water temperature gauge includes 1/8" NPT sender and 3/8" & 1/2" NPT adapters.

AU1504 Fuel Level, 0 Ohms E / 90 Ohms F (GM 1965-on)
AU1505 Fuel Level, 73 Ohms E / 10 Ohms F (Ford & Chrys)
AU1506 Fuel Level, 240 Ohms E / 33 Ohms F (Universal)
AU1507 Fuel Level, 0 Ohms E / 30 Ohms F (pre-1965 GM)
AU1528 Oil Pressure Electric, 0-100psi
AU1538 Water Temperature Electric, 100°-250°F
AU1586 Clock, Quartz Movement
AU1592 Voltmeter, 8-18 Volts

WHITE SIGNATURE SERIES GAUGES

White signature series five piece street rod gauge kit includes 3-1/8" diameter 160mph electronic speedo and 2-1/16" diameter oil pressure, water temperature, fuel level and volt gauges. Matching 3-1/8" diameter 8000rpm tachometer is sold separately.

Five Piece Street Rod Kit with 3-1/8" Elect Speedo AU880087
3-1/8" 8000rpm Tachometer AU880088

FORD MASTERPIECE GAUGE COLLECTION

FMM-19017-B961 CHROME BEZEL SERIES (KIT)

5-gauge kits include: speedometer, oil pressure gauge and sender, water temperature gauge and sender, fuel level gauge and sender and battery voltage gauge.

Luxurious finishes embossed with Ford emblem Chrome design with white background, gray sweep zone, black graphics and needle-style pointer. Includes all components necessary to install Electronic operation, except Speedometer, which is mechanical. Case diameter is 3-1/8" (Speedometer) and 2-1/16" (Water, Oil, Fuel & Battery) Fuel-level sender compatibility is 240 OHM empty, 33 OHM full - 12 volt (Available separately M-10871-A962) Fuel-level sender is adjustable from 6" to 23" Speedometer, Oil Pressure Gauge and Sender, Water Temperature Gauge and Sender, Fuel Level Gauge and Sender and Battery Voltage Gauge.

COBRA SERIES

This vintage sports series offers chrome bezels, through the dial lighting, an authentic reverse sweep speedometer and a matching tach and gauges. The 4" diameter tach and speedo are a direct fit in most Cobra car dashes.

Sky Drive

Calibrate your speedometer in less than a minute and you don't even have to leave your driveway! Sky Drive is the world's most accurate electronic speedometer sending unit. No need for ECU converters or pulse signal generators screwed onto your transmission. The new Sky Drive uses GPS Satellite signals to operate your electronic speedometer. It updates 10 times per second and with one push of a button it's ready to go.

CISN81

CICL901SRC

All American Nickel

This series incorporates numerous design techniques that create a dramatic dimensional look to the instrumentation. The All American Nickel™ series displays a nickel appearance with the elegant styling of the instrumentation within the All American™ lines. Part numbers listed below have high step bezels. For low profile radial bezels change the suffix from SHC to SRC.

All American Tradition

The face of this instrument features a spun central point with a black background which allows the polished aluminum numbers and indices to radiate off the face. This series is offered standard with polished stainless high stepped bezels and curved glass, the white teardrop pointers and elegant "All American" emblems complete this masterpiece. Tom Gale has once again collaborated with the team at Classic Instruments with wonderful results. Part numbers listed below have high step bezels. For low profile radial bezels change the suffix from SHC to SRC.

All American™ Series

Tom Gale, formerly Chief Designer of the Daimler Chrysler Corporation, has led the Classic Instruments™ design team in the production of a beautiful new series. This new series incorporates the unique look of spun metal into a graceful All American® series. The instrumentation is delicately hand crafted with a raised "AAW" logo. This innovative design features curved glass, which flows into the smooth contour of a polished stainless radial bezel.

Nostalgia VT Gauge Series

A modern look back in time with the class and elegance you'd expect from Classic Instruments.

This series features a raised accent ring in the center complemented by the custom built, hand-made chrome pointer. Alternating diamond indices give this series a rich, classic feel. The beautiful color combination captivates a nostalgic, vintage finish on the series. This series comes with stainless high step bezels, curved glass, and is available in several combinations of instruments.

- CINT00SHC** - 5 Gauge Set
3 3/8" Speedo & 2 1/8" Fuel, Oil, Temp, Volts
- CINT02SHC** - 2 Gauge Set
3 3/8" Speedo, Quad
- CINT03SHC** - 3 Gauge Set
3 3/8" Speedo, Tach & Quad
- CINT80SHC** - Tachometer
3 3/8" 6,000 rpm tach

Esquire Series

Classic Instruments is pleased to announce the release of the Esquire Series. These new square gauges command respect and portray an image of stylish excellence. Featuring a custom machined aluminum bezel, glass lens, chromed pointer, laser etched numerals, a warm grey and cream on a spun aluminum dial face and warm LED lighting. Available individually or in a variety of set combinations that includes all necessary sending units.

- CIES00** - 5 Gauge Set
3 3/8" Speedo & 2 1/8" Fuel, Oil, Temp, Volts
- CIES02** - 2 Gauge Set
3 3/8" Speedo, Quad
- CIES03** - 3 Gauge Set
3 3/8" Speedo, Tach & Quad
- CIES80** - Tachometer
4" 8,000 rpm tach

Rocket Tachometer

The retro styled, half sweep tachometer features a dual layer design, color changing rocket booster, a red pointer, and a rich black face with bright white numerals and indices. Finished with a stainless low step bezel and flat glass the Rocket Tach comes mounted in a chrome cup that allows for a variety of mounting positions. Stock calibrated for eight cylinder engines the Rocket Tach can be special ordered for other configurations. Computer generated signals will require the use of an SN76 adaptor (not included). Great for completing that nostalgic look with the latest electronic technology, the Classic Instruments Rocket Tach is truly a blast from the past!

CIBEO1WW---F - 6 Gauge Set	6 Gauge Set: BelEra Package - 3 3/8" Speedo, 2 1/8" Fuel, Volt, Tach, Temp, Oil

57 Chevy Pod Cluster

This exclusive Gauge set is only available from Classic Instruments™. The '57 Chevy Pod Cluster is designed to fit easily into the stock pod cluster of a '57 Chevy. This Gauge set comes with an interface box to make installation and calibration easy and less time consuming. Gauge bezel shown in picture is not included. Matching electric clocks available separately.

CICHO1BSLF - 3 Gauge Set - Black with White Lettering	3 Gauge Set: Tetra Series - 5" Quad (Speedo, Tach, Oil, Volts) & 2 1/8" Fuel, Temp
CICHO1GSLF - 3 Gauge Set - Grey with Red & White Lettering	3 Gauge Set: Tetra Series - 5" Quad (Speedo, Tach, Oil, Volts) & 2 1/8" Fuel, Temp
CICHO1TSLF - 3 Gauge Set - Tan with Brown Lettering	3 Gauge Set: Tetra Series - 5" Quad (Speedo, Tach, Oil, Volts) & 2 1/8" Fuel, Temp
CICHO1WSLF - 3 Gauge Set - White with Black Lettering	3 Gauge Set: Tetra Series - 5" Quad (Speedo, Tach, Oil, Volts) & 2 1/8" Fuel, Temp

57 Chevy Electric Clocks

Rectangular electric clocks to match the 57 Chevy pod cluster gauges.

CI57-BCLK - Black with White Lettering

CI57-GCLK - Grey with Red & White Lettering

CI57-TCLK - Tan with Brown Lettering

CI57-WCLK - White with Black Lettering

SG™ Series

The all new SG Series features a popular grey and white face design and bold graphic layout.

Moal Series

We are proud to present some of the most unique gauge & bezel assemblies we have ever offered. Designed by renowned custom builder, Steve Moal to capture the look and feel of WWII era aircraft instruments which found their way into many post war hot rods and land speed contenders. Set includes 3" Speedo & Tach and 2" Oil, Fuel, Volts & Temp. Large Speedo bezel features LED turn signal and high beam indicator lights in "adjuster knobs". Bomber bezels sold Separately.

CIMA01BLF - 6 Gauge Set 6 Gauge Set: 3 3/8" Speedo, Tach & 2 1/8" Fuel, Oil, Temp, Volts
CIBZMA6GS - 6 Bezel Set 6 Bomber style bezels for use with Moal series 6 gauge set.

BOMBER BEZELS™

designed by Moal Coach Builders

Accessorize your ride with the new trim bezel designed by Moal. Guaranteed to give you the Aviator look you've been searching for! The bezels are designed to fit any 2-1/8" or 3-3/4" Classic Instruments gauge. The large speedometer ring houses the turn signals and high-beam LED lights in the simulator adjuster knobs. All of the rings are powder coated in a durable matte black. They also have machine screws at each corner and carry the Classic Instruments five year warranty. Easily fits over any stainless low-step bezel.

Moal Bezels/Part CIBZMAGGS

B.O.G. (Big Ol' Gauge)

The BOG (Big Ol' Gauge) is an all-inclusive gauge package that includes an electronic programmable speedometer, tachometer, fuel level, volt, oil pressure, and coolant temperature gauges. The package is mounted into a custom machined, nickel-plated aluminum bezel and features a curved glass lens. Turn signal and high beam indicators come standard, built into the dial face. The BOG mounts into a 7 5/8" hole, so when size isn't an issue, go with the BOG! Comes with all necessary sending units and can be built to match your existing fuel sender if needed.

V8 Speedster Series

Tom Gale, formerly Chief Designer of the Daimler Chrysler Corporation, has led the Classic Instruments™ design team in the production of a beautiful new series. Designed with unique dial faces that are spun and engine turned aluminum. The pointers for this series is a new design and each pointer is chrome plated. The face has a trademarked chrome V8 emblem with significant American Hot Rod Heritage. Also, the light diffusers have laser etched indices lining up with the indices on the gauge faces.

65-66 Mustang Package

We are proud to announce the 1965-66 Mustang gauge package. We have taken a five gauge set (Speedometer, Fuel 75-10 ohms range, Volts, Water Temp, and Oil Pressure), with the option of an added tachometer (Ultimate gauge), and combined it with mounting brackets for our gauges to fit into your Mustang housing.

The mounting system is easy to install and will fit with most aftermarket bezels. Each gauge set comes with an easy to follow step-by-step instruction manual to wire in all your gauges.

CIMU65GS00-C 5 Gauge Set: G-Stock 3 3/8" Speedo & 2 1/8" Fuel, Volt, Temp, Oil
CIMU65GS35-C 5 Gauge Set: G-Stock 3 3/8" Ultimate Speedo & 2 1/8" Fuel, Volt, Temp, Oil
CIMU65HR00-C 5 Gauge Set: Hot Rod 3 3/8" Speedo & 2 1/8" Fuel, Volt, Temp, Oil
CIMU65HR35-C 5 Gauge Set: Hot Rod 3 3/8" Ultimate Speedo & 2 1/8" Fuel, Volt, Temp, Oil
CIMU65VSB00-C 5 Gauge Set: Velocity Black 3 3/8" Speedo & 2 1/8" Fuel, Volt, Temp, Oil
CIMU65VSB35-C 5 Gauge Set: Velocity Black 3 3/8" Ultimate Speedo & 2 1/8" Fuel, Volt, Temp, Oil
CIMU65SW00-C 5 Gauge Set: Velocity White 3 3/8" Speedo & 2 1/8" Fuel, Volt, Temp, Oil
CIMU65SW35-C 5 Gauge Set: Velocity White 3 3/8" Ultimate Speedo & 2 1/8" Fuel, Volt, Temp, Oil
CIMU65WH00-C 5 Gauge Set: White Hot 3 3/8" Speedo & 2 1/8" Fuel, Volt, Temp, Oil
CIMU65WH35-C 5 Gauge Set: White Hot 3 3/8" Ultimate Speedo & 2 1/8" Fuel, Volt, Temp, Oil

67-68 Camaro Gauge Set

The '67-'68 Classic Camaro instrument cluster is assembled in a premium quality OER reproduction dash bezel. The package is ready to bolt into your dash, complete with instrument harness.

2 Gauge Set: Camaro Package

CICAM6701AN-C-2 American Nickel
CICAM6701AT-C-2 All American Tradition
CICAM6701AW-C-2 All American

Sender Units

Classic Instruments gauge sets are supplied with all necessary senders but individual gauges are supplied without senders. Use only genuine Classic Instruments senders for guaranteed accuracy.

CISN12MM Temperature Sender - 12mm
CISN23 Temperature Sender - 1/4" NPT EA
CISN24 Temperature Sender - 3/8" NPT EA
CISN25 Temperature Sender - 1/2" NPT EA
CISN52 Oil Pressure Sender - 1/8" NPT
CISN53 Chrome Oil Pressure Sender - 1/8" NPT
CISN38 Fuel Level Sender 0-90 Ohms
CISN17 Ford Pulse Signal Generator Adapter

Dakota Digital

TEN-FUNCTION REMOTE ENTRY SYSTEMS

Key Features:

- All Harnesses and wire ends are fully assembled insuring easy installation.
- Heavy duty 30 amp relays provided for greater reliability.
- Code hopping technology for added security.
- 2- Six button transmitters for easier operation.
- Park light flash for visual feedback during operation.
- Ignition safety disables door and trunk release when engine is running.
- Sealed switch included for emergency driver's door entry.
- 10 function operation for:
 - Controls driver side window up.
 - Controls driver side window down.
 - Controls passenger side window up.
 - Controls passenger side window down.
 - Remotely opens driver side door.
 - Remotely opens passenger side door.
 - Releases or raises trunk/ rear hatch.
 - Lowers trunk or rear hatch.
 - Raise auxiliary motor or releases auxiliary latch.
 - Lower auxiliary motor or programmable auxiliary channel can momentarily turn on/off or toggle on/off any electrical device.

Part No. DAKCMD-10K-2

HDX SERIES GAUGE KITS

Available with your choice of black or silver alloy gauge-face styling, each HDX system allows the user to select independent illumination colours for the gauge readings and needles, as well as the message centres. Calibration and personal settings are manipulated with the built-in, capacitive-touch buttons, or the available Bluetooth app for Apple and Android devices. Each needle hub is black nickel plated spun-aluminium to match the buttons. All HDX instrument systems feature dead-faced indicators (turn signals, high beam, check engine, cruise control, parking brake, plus two user-definable), and a red, settable warning light for each gauge. With our central control box, installation is greatly simplified with vehicle-harness sourced signals and supplied, solid state sending units connecting cleanly to their respective terminal. Click the tabs below for a more in-depth look at the HDX series!

6 Gauge Universal Oval Digital Instrument Panel

Dakota Digital Series III instrument systems offer the latest technologies and features for your custom vehicle. High brightness vacuum fluorescent displays provide a lifetime of trouble free use while offering increased accuracy and features! Chromed machined aluminium housing.

Unit Dimensions: 4.25" x 12" W

DAKVF03-100B

3 or 5- Hole RetroTech Digital Instrument System

As the name suggests, the RetroTech information systems are truly a reawakening of the retro artistry of the past, coupled with cutting edge technology of today. Offering an extensive array of features such as: 0-255 mph/kph speedo, 0-9990 Tach, 0-80 psi oil pressure, 0-300 degree water temp, 8-17 voltmeter, 0-99% fuel level, million mile odometer, trip odometer, turn signals, high beam, gear shift, parking brake, cruise control and check engine indicators. Also several performance indications are standard features: 0-60 mph / 0-100 kph timer, 1/4 mile time, 1/4 mile speed display, high speed recall, as well as service and hour meters. Available with or without wings on bezel.

Universal Dual Round VHX Instrument

A new look on a traditional layout, the dual round gauge format has been a design staple for generations. Allowing flexibility into nearly any type of vehicle, these 5.4" dual round packages complement several vehicle themes. Gauge housings machined from 6061 aluminum, finished in flawless chrome plating. Cutout diameter of 5", Depth of 1.85". Fully lit needles, backlit faces, and highly visible LCD message centers are a few of the things that you can see which set the VHX Series apart from yesterday's traditional approach to instrumentation. A few of the features which you don't normally see are the micro-controlled precision stepper motors, solid state sensors for unparalleled accuracy, and user-customizable display feedback, all supported by an unrivaled limited lifetime warranty which has become the standard for Dakota Digital instrumentation systems. Completely engineered and manufactured at our facility in Sioux Falls, South Dakota, the VHX Series has completely revolutionized the instrumentation industry!

OBD II SPEEDOMETER/ TACHOMETER INTERFACE

The Dakota Digital STA-1000: Simple, Late-Model Drivetrain integration has never been simpler! The STA-1000 plugs directly into the OBDII diagnostic connector, providing a user-adjustable traditional Speedometer, Tachometer and Check-Engine output for your choice of aftermarket instruments.

- Features:
- Fully compatible with common aftermarket electronic speedometers
 - User selectable output of: 4k, 8k, 16k PPM signals, Sine or Square wave options
 - +/-35% seed signal correction, compensating for tire size or gearing changes
 - Adjustable 4, 6 or 8 cylinder tachometer signal output
 - Check Engine light output provides a grounded (-) output to activate a check engine light of your choice
 - Automatically calibrated output for an aftermarket cruise control can be activated by making connection to the higher-resolution fixed VSS sensor
 - Small footprint measures 4-3/4" x 3" x 1" making it easy to hide

Universal Tachometer Signal Interface

The SGI-8 Tachometer Interface Unit is designed to allow a factory tachometer to function accurately after performing an engine swap to an engine with a different number of cylinders or tach signal. If you are swapping out a V-6 for a V-8 and you need to recalibrate the tach signal from the V-8 to make it read accurately on the factory V-6 tachometer, the SGI-8 will do the job. The SGI-8 is capable of recalibrating tachometer signals for nearly any engine swap combination.

DAKSGI-8 Universal Tachometer Signal Interface

Universal

Speedometer

Signal Interface

The SGI-5 Universal Signal Interface Unit can handle nearly any of your electric speedometer signal conversion and calibration issues. The SGI-5 can recalibrate 2,000 pulse per mile (ppm) through 250,000 ppm electronic speedometer pulse rates, either up or down. The SGI-5 is great for adjusting aftermarket and OEM electric speedometers on vehicles after changing rear end gears, tire sizes, or drivetrain changes affecting the speedometer. The SGI-5 is used as either a signal multiplier (up to 4X) or signal divider (up to 125X), making this unit extremely flexible for almost any application. While the SGI-5 is intended to correct only the signal feeding the electronic speedometer, in many cases where a speed signal is shared or on a databus, the SGI-5 can instead correct the signal feeding the engine and transmission computers. If your vehicle is equipped with an anti-lock braking system (ABS), it is generally advised to ensure the signal reaching the ABS controller is not altered to eliminate any potential problems affecting control algorithms within the system. Some vehicles also utilize the output shaft speed to calculate transmission slip and lock-up. When a signal feeding the PCM is altered, this may cause the PCM to detect a constant slip. Consulting a service manual may be of assistance in determining the signal routing within the vehicle if the SGI-5 is decided to be used in a situation such as this.

ELECTRIC CABLE DRIVE

Ford Clip-on Style Finally, the missing link between your muscle car's original, cable-driven speedometer and swapped-in electronic transmission! Measuring a compact 5" x 4.1" x 2.15", the new Electronic Cable Drive allows the use of a mechanical-cable speedometer to be used in conjunction with a modern drive-train which provides only an electronic output. Available with provisions for GM thread-on, GM clip-on as well as Ford clip-on style cables, the ECD-100 offers the utmost in adaptability. Supplied cable is 36 inch length. Quiet operation from the powerful motor allows the user to place the module inside the cabin. The case is waterproofed, allowing it to alternatively be mounted under the bonnet, or even inside a guard. Simple calibration with a remotely-mounted switch means there are no DIP-switches to hassle with; access to ECD module is not required! Industry-standard "measured-mile" calibration as well as speed adjustment while driving, based on a GPS or other known-speedometer reading, keep setup ultrasimple. The ECD-100 uses PID control of the cable speed to provide quick, smooth operation as well as preventing overdriving or damaging the speedometer needle. Consider this the most precise and easiest to use cable-drive unit on the market!

H026-502 Mechanical Fuel Pressure Gauge 0-30 PSI Non Liquid Filled

H026-504 Mechanical Fuel Pressure Gauge 0-15 PSI Liquid Filled

Features: 1.5 in. Diameter, Chromed Steel Case, 0.125 in. NPT Brass Fitting Includes Elbow Fitting 1 1/2" Diameter. Fits Holley chromed fuel lines and fuel block

Electric Fuel Pressure Gauge

This 0-15psi electric fuel pressure gauge allows you to monitor fuel pressure while driving. It includes 1/8" NPT sending unit and is suitable for dash mounting inside the car.

H026-503

H026-69

Nitrous Pressure Gauge

Measures from 0-1500 PSI and is essential in monitoring the pressure in the bottle for optimal performance. It is recommended to keep the pressure between 900-950 psi which is indicated in green on the gauge to allow ease of tuning the nitrous system. It may be fitted to the bottle or just in front of the nitrous solenoid with a 1/8 NPT male fitting attached the back of the gauge. With this liquid-filled gauge it provides protection against vibrational dampening to allow more accurate readings.

AF30-2215

NOS Fuel Pressure Gauges

They include both standard and glycerin-filled gauges (1-1/2" diameter) plus, large 2-5/8" gauges in many colors. Fuel pressure gauges measure from 0-15 psi and are intended for use with carburetor plate and direct port nitrous systems. Gauges equipped with an isolator for in-cockpit installations are available, as are glycerin-filled gauges (1-1/2" only) that provide more accurate and uniform readings through dampening vibration.

NOS15900 1-1/2" Dia Standard 0-15 lb. Fuel Pressure Gauge
NOS15902 2-5/8" Dia Standard 0-15 lb. Fuel Pressure Gauge

Fuel Pressure Gauges for EFI Applications

Designed specifically for use with NOS EFI nitrous systems where much higher fuel pressures are used. Accurate from 0 to 120 psi. A glycerin filled version is available to provide vibration dampening and allow a more accurate and uniform reading.

15906NOS 1-1/2" dia 0 to 120 psi Fuel Press Gauge for EFI

Nitrous Pressure Gauges

The NOS Nitrous Pressure Gauge measures from 0 - 1500 psi (although the recommended level is 900-950 psi) and is essential in monitoring the bottle. Available in "standard" and glycerin-filled models designed to withstand engine vibration, etc.

- NOS15910** 1-1/2" dia 0-1500 PSI with -4AN adapter
NOS15911 2-5/8" dia 0-1500 PSI Blue face
NOS15912 1-1/2" dia 0-1500 PSI with -6AN adapt

Racer's Nitrous and Fuel Pressure Gauges

Designed with the professional in mind, these gauge kits are engineered with greater accuracy and convenience. Each gauge includes a Schrader valve fitting for quick and accurate pressure checks to help maximize your performance run after run. Also features a 1" steel braided hose extension for extra convenience. Fuel pressure gauge measures from 0-30 psi while the nitrous gauge measures from 0-1500 psi.

15930NOS (Fuel)
15931NOS (Nitrous)

Fuel & Nitrous System Pressure Gauges

Nitrous System mechanical pressure gauges are an important element in maximizing and tuning your nitrous system. The 1-1/2" gauges may be fitted onto a nitrous bottle or just in front of the nitrous solenoid. A high-quality engineered mechanism provides durability and accuracy. Braided stainless steel lines are recommended for high-pressure applications. 2-5/8" gauges come with all necessary adapter fittings.

1-1/2" Pressure Mechanical Gauges

- ED73800** Nitrous Pressure Gauge, 0-1400 PSI
ED73801 Liquid-Filled Nitrous Pressure Gauge, 0-1400 PSI
ED73825 Fuel Pressure Gauge for High-Pressure Fuel Systems, 0-100 PSI
ED73826 Liquid-Filled Fuel Pressure Gauge for High-Pressure Fuel Systems, 0-100 PSI
ED73831 Fuel Pressure Gauge 0-15 PSI
ED73832 Liquid-Filled Fuel Pressure Gauge 0-15 PSI

2-5/8" Pressure Mechanical Gauges

- ED73802** Nitrous Pressure Gauge, 0-1400 PSI
ED73827 Fuel Pressure Gauge, 0-15 PSI
ED73828 Liquid-Filled Fuel Pressure Gauge, 0-15 PSI
ED73829 Fuel Pressure Gauge for High-Pressure Fuel Systems, 0-100 PSI
ED73830 Liquid-Filled Fuel Pressure Gauge for High-Pressure Fuel Systems, 0-100 PSI

VACUUM GAUGES

Vacuum Gauge

2" Diameter 0-30 in. Hg vacuum gauge with chromed steel case and 1/8" NPT brass fitting. Includes adapter to attach to vacuum hose.

H026-501 0-30 in. Hg Vacuum Gauge

VACUUM GAUGE

- Used to determine vacuum in your engine
- Will fit any 1/8" NPT thread
- Excellent vibration and shock resistance

M089610 - Vacuum Gauge, 1.5" Diameter, 0-30" Hg

TYRE GAUGES

DIGITAL TYRE PRESSURE

GAUGE BACK LIT

- 2-5/8" dia. gauge face
 - Accurate within .005psi
 - Reads to .1 psi
 - Can be adjusted to read in BAR
 - Auto-Off feature to increase battery life
 - Battery level on gauge face
 - Includes 9V battery which is easy to change
 - Includes rubber gauge cover
 - 16" hose with finger operated air-bleed valve allows you to release pressure quickly
 - Hose has easy grip angle chuck end
- M089574** - Digital Tyre Pressure Back Lit Gauge, 0-15 psi

Auto Meter Tyre Pressure Gauge

The 60psi gauge retains the last measurement until pressure is released. Patented design assures accuracy and durability, while a large dial and angled chuck enable easy measuring.

AU2343 Tyre Pressure Gauge 60psi (Mechanical)

Pro Tyre Pressure Gauge

Mr. Gasket Pro, tyre pressure gauges are developed for professional race or high performance street cars high quality and accuracy within 1% are mandatory. The large, four inch diameter stainless steel case protects the brass bourdon tube mechanism, which insures repeatability. Easy-to-read gauge face on 0-15 psi gauges is calibrated in 3lb. increments. The 15 inch hose is ideal for big offset racing wheels, and built-in plastic hand grip, air bleed valve, and swivel chuck make it easy to adjust tire pressure quickly!

MGP7200 Tyre Pressure Gauge 0-15 lb.

Lighted Tyre Pressure Gauges

- Accuracy 2-1/2%
 - Longer, 15-1/2" hose is ideal for use with deep-dish wheels
 - Lighted Tyre Pressure Gauges using (EL) lighting technology
 - A momentary switch, built into the side of the gauge, activates the light when pressed
 - Includes standard -size 9V battery, which is easy to change and provides long-life power source
 - Protective rubber cover, molded around the switch and battery, isolates the gauge from shock when dropped or struck
 - Pressure release valve and hardened steel swivel chuck for extended life
 - Includes rugged, polyethylene carrying case with open-cell foam padding to protect gauge during transportation and storage
- M089582** Lighted Tyre Pressure Gauge, dial type, 0-15 psi
M089583 Lighted Tyre Pressure Gauge, dial type, 0-60 psi

Tyre Pressure Gauge Cover

Protective rubber cover insures long service and continued accuracy of Moroso 2-5/8" Tyre Pressure Gauges. Specially designed ribs on the inside and outside of the cover provide superior protection when the gauge is dropped or struck. A must for anyone who uses Moroso gauges (Nos. 89550, 89560, 89570 & 89580), or other 2-5/8" o.d. x 1-1/8" gauges

Note: Not required for Moroso's Lighted Tyre Pressure Gauges. Will not fit Pro Series tyre gauges.

M089590 Tyre Pressure Gauge Cover

MOROSO Digital Tyre Pressure Gauges

High quality digital gauge with auto-off feature after 20 minutes. Gauge face has a 2" wide display window which reads to hundredths. Individually calibrated for full scale accuracy. Features a low battery indicator. Readout displays in multiple scales (PSI, Bar, Pascal, HG). Comes with foam-lined storage case. Overpressure indicator. Includes standard-size 9V battery, which is easy to change and provides long-life power source. 16" hose with a finger operated air-bleed valve allows you to release pressure quickly. Hose has easy grip angle chuck end.

M089540 Digital Tyre Pressure Gauge, 4 digit readout, 0-15 psi, (accurate within -0.15 lb.), 2-5/8" dia. gauge

MOROSO Pro Series Tyre Pressure Gauges

Premium high-quality instruments with brass internals and Bourdon Tube Pressure Element provide full-range accuracy to within 1/2%. Extra-large 4" diameter face and knife-edge pointer eliminate human error. Adjustable pointer can be calibrated at the race track. Fiberglass-reinforced thermoplastic housing withstands harsh racing environments. Long 16" hose with pressure release valve and hardened steel swivel chuck is perfect for getting into deep-dish wheels. Rugged polyethylene plastic carrying case is lined with a medium-density, open-cell foam insert to keep gauge protected during transportation and storage

M089552 0-15 psi.

Major increments at 3 psi with minor increments at 0.1 psi

MOROSO Tyre Pressure Gauges

Individually calibrated for accuracy within 2%. The large 2-5/8" dia. dial face is easy to read, while the hardened swivel chuck rotates 360° for positive valve stem attachment. 15-1/2" hose with a finger operated air-bleed valve allows you to release pressure quickly

M089550 Tyre Pressure Gauge, dial type, 0-15 psi

M089555 Radial Tyre Pressure Gauge, dial type, 0-40 psi

MOROSO Flutter Guard Tyre Gauge

Individually calibrated for accuracy within 1% of the full scale. Moroso's vibration controlled dial mechanism design keeps an accurate reading under most conditions. Manufactured with stainless steel bourdon tube, movement and case. Large 2 and five-eighths inch dia. dial face is easy to read, while the hardened swivel check rotates 360 degrees for positive valve stem attachment. 15 and one-half inch hose with a finger operated air-bleed valve allows you to release pressure quickly.

M089581 Flutter Guard Tyre Gauge, dial type, 0-15 psi.

Proform Tyre Pressure Gauges

Don't let a little tyre pressure change affect you on race day! Quickly and easily gauge tyre pressure with PROFORM's easy to-use, hose-equipped tyre pressure gauges. 1 1/2" diameter face and heavy-duty shatterproof glass make this tool a must have for every tool box.

PR67403 Tyre Pressure Gauge 0 - 60 lbs.
PR67404 Tyre Pressure Gauge 0 - 15 lbs.

Pro-Comp Tyre Pressure Gauge

Having an exact measurement of your tyre pressure is oftentimes the difference between lighting up the win lights and blowing your tires off at the line.

- Auto Meter's professional grade digital tyre pressure gauge provides the most accurate measurement available in a durable package designed for the rigors of life at the track.
- 0-15, 0-60, 0-40, 0-100 PSI Range
 - Accuracy: 2.5% FS
 - Large 2.25" dial face for easy viewing
 - Sure grip rubber shock isolation boot
 - 13.75" Stainless braided line
 - Angled chuck enables easy measuring
 - Mechanical pressure release valve
 - Rugged carrying case
 - Shock dampening easy-grip housing
- AU2159** 0-15 PSI (Mechanical)
AU2160 0-60 PSI (Mechanical)
AU2162 0-40 PSI (Mechanical)
AU2164 0-100 PSI (Mechanical)

LS SERIES TACHO PLUG & PLAY HARNESS

If you've tried to get your tach to function after an LS swap, you know that it isn't always a simple procedure. Save time, frustration and don't make a single cut in your factory wiring with Auto Meter's Plug and Play LS Tach Harness. This Plug and Play solution lets you quickly and easily install the Auto Meter 9117 Tach Adapter onto your LS-derived engine. OEM spec connectors and wiring assure a hassle free installation that takes minutes rather than hours. No splicing, cutting or risks of voiding your vehicle's warranty. It's completely reversible and couldn't be easier. Get the best possible results in the least amount of time with the solution guaranteed to work right, the first time.

- Includes Auto Meter 9117 tach adapter • The complete plug and play solution • Does not alter factory wiring • Plugs into factory ignition coil connectors • 3ft harness length
- Sealed connector plug in to Auto Meter 9117 Tach Adapter

AU9123 LS Plug & Play Harness With Tach Adapter

Low Pressure Gauge Isolator

Fuel press isolator kit for 15 psi gauges, red anodized aluminium, -4an fittings
AU5376

Fuel Level Sender

Universal fuel level sender for gauge models: 1317,1417, 2320, 2513, 2516, 2622, 2643, 3513, 3516, 4416, 5417 (240Ohms/330hmsF)

AU3262 Fuel Level Sender

DIESEL TACH ADAPTER

The modern electronic tachometer typically requires an ignition system to read. This has made hooking up a tach to a diesel engine a bit of a challenge, due to the lack of any sort of ignition. Solutions up to this point have been complicated and temperamental. AutoMeter's new Diesel Tach Adapter makes the process incredibly easy and affordable. Simply attach the included pickup to the outside of the alternator and calibrate with the push-button module. You can drive any AutoMeter tachometer with no fuss (including our new line of low rev tachs that are perfect for low rpm diesel applications). It will work just about any engine with a crank driven alternator, so you're not limited to just diesel applications.

AU9112

Pro-Control

Can be used as a rev-limiter, air shift activator or nitrous trigger. As a rev limiter it guards against over-revving by allowing 100% power until reaching the pre-set RPM level. Models without reset button interrupt ignition power for a fraction of a second. Models with reset button are for supercharged engines. Reset unit shuts off engine completely.

AU5301 For Standard/Electronic Ignition

AU5302 For Vertex Magneto OAC & MSD Pro Mag Ignition

AU5306 For Vertex Magneto OXC or Super Mag Ign (Shutdown model)

*These models include a By Pass Delay to prevent activation of nitrous at the drag race starting line. Allows full power despite RPM being higher than dialled in on the Pro-Control.

Signal Converters

AU9118 Magneto Signal Converter

(Allows any AutoMeter tach, Pro-shift lite or RPM activated module to be used on most magneto applications)

AU9117 Tach Adapter

(Allows any AutoMeter tach, Pro-shift lite or RPM activated module to be used on distributorless ignition)

Dimmer Switch

Allows for isolated dimming of LED through the dial lit gauges separate from OEM dash. Compatible with all LED lit instruments.

AU9114

High Pressure Gauge Isolator

For interior mounting of mechanical Auto Meter pressure gauge. 200psi working - 300psi peak. Comes with 4 ft braided line.

AU5282 High pressure isolator

Tubing (All Gauges)

AU3222 Nylon Tubing

6ft, 1/8" dia with ferrules, only for mechanical pressure gauges (except fuel pressure gauges and models 5423 and 5426).

AU3223 Nylon Tubing

6ft, 1/8" dia. complete with fittings and ferrules, for mechanical gauges (except fuel pressure, gauges and models 5423 and 5426).

AU3224 Copper Tubing

6ft, 1/8" dia. for mechanical pressure gauges (except fuel and brake pressure gauges).

AU3226 Nylon Tubing

12ft, 1/8" dia. for mechanical pressure gauges (except fuel and brake pressure gauges).

AU3227 Braided Stainless Steel Line

3ft. #4, 3/16ID, for use with mechanical pressure gauges and fuel pressure gauges.

AU3228 Braided Stainless Steel Line

6ft. #4, 3/16ID, for use with mechanical pressure gauges and fuel pressure gauges.

AU3229 Braided Stainless Steel Line

4ft. #4, 3/16ID, for use with mechanical pressure gauges and fuel pressure gauges.

AU3234 Braided Stainless Steel Line

3ft. #3, 3/16ID, for use with mechanical pressure gauges and fuel pressure gauges.

AU3235 Braided Stainless Steel Line

4ft. #3, 3/16ID, for use with mechanical pressure gauges and fuel pressure gauges.

AU3236 Braided Stainless Steel Line

6ft. #3, 3/16ID, for use with mechanical pressure gauges and fuel pressure gauges.

AeroFlow Oil Pressure Gauge Adapters

These adapters allow you to add an electric oil pressure gauge while still retaining the stock warning light or gauge. The adapters are 2-1/2" long and fit inline between the engine and the stock oil pressure switch and have a 1/8"-27 NPT port on the side to suit the aftermarket pressure sender.

Description	Part No.

-4AN Elbow Fittings

- AU3273** 45deg Elbow Fitting
 -4AN elbow fitting, 45deg with swivel nut. Also for use with the new -4AN Fuel Pressure, Brake Pressure and Nitrous Pressure gauges.
AU3274 90deg Elbow Fitting
 -4AN elbow fitting, 90deg with swivel nut. Also for use with the new -4AN Fuel Pressure, Brake Pressure and Nitrous Pressure gauges.

Fuel Rail Adapters

- AU3275** Fuel Rail Adapter
 1-1/16" NPT Male -4AN Male mechanical gauge adapter for fuel rail.
AU3280 Fuel Rail Adapter
 1/16" NPT Male 1/8"NPT Female adapter for fuel rail. For use with Electric Fuel Pressure gauges.
AU2276 Banjo Bolt Adapter 12mm Banjo bolt to 1/8"NPT

Right Angle Fittings

For use with Auto Meter 2-5/8" mechanical pressure and vacuum gauges.

- AU3270** For Pressure Gauges using #3 braided s/steel line
AU3271 For Pressure Gauges using #4 braided s/steel line
AU3278 Blue Aluminium version of AU3271
AU3272 For Pressure Gauges using 1/8" braided s/steel copper or nylon tubing

LS Holden Gauge fitting kit.

Contains AU2277, AU2268, AU2259 and a 10K resistor
AU5284 LS Holden install Gauge kit

Nitrous/Fuel Restrictor

Restricts nitrous flow. To be used with model number AU3428 and AU4428.

- AU3277** Nitrous/Fuel Restrictor

Temperature Manifold

For Transmission temperature gauges

- AU2286** Fits 3/8" OD Tubing
AU2287 Fits 5/16" OD Tubing

Angle Rings

Quality molded black plastic rings angle gauges towards the driver. Sold in packages of three.

- AU2234** suit Auto Meter or Autogage 2-1/6"
AU3244 suit Auto Meter or Autogage 2-5/8"

Mounting Brackets

Quality molded black plastic mounting brackets w/aluminium thumb nuts and washers. Sold in packs of 3.

- AU2230** to suit 2-1/16" gauges
AU3245 to suit 2-5/8" gauges

Extension Wire

- AU3257** Quick-Lite 3ft Extension wire with connector
AU5220 Playback Control Module 8ft Extension wire with connector for remote location of PlaybackTach control module.
AU5223 20Ft Full sweep electric nitrous pressure harness. Ideal for mounting sender on bottle in rear of car.

Memory Switch

For tachometers with remote Memory plate. Will work with new recessed switch design. Switch assembly only, mounting plate not included.

- AU5225** Replacement Rotary Memory Switch

Playback Box Wire Harness

- AU5222** Wiring Harness, use w/the Playback Box 9150 or 9160

Tachometer Accessories

Inductive Trigger for hook-up of Pro-Comp, Super Mag and Vertex OXC model tachs.

- AU5210** Inductive Trigger
AU5211 Replacement Probe
 For use with 6806 5" Pro Comp Memory Tachometer.
AU5212 Replacement Drive Shaft Sensor
 For Ultimate Dual Channel Playback Tachometer

Pyrometer Accessories

Type K Thermocouple Probes

- AU5243** Pro Series Probe Kit Includes 1/4" dia. Stainless Racing Probe, 1/4" compression/1/8" NPT connector & weld fitting.
AU5245 1/4" Dia Stainless Racing Probe With 10ft wire
AU5244 Competition Series Probe Kit
 Includes 3/16" dia. Stainless Racing Probe with 10ft wire, 3/16" compression to 1/8" NPT connector and weld fitting.

- AU5249** Street Series Probe Kit
 Includes 1/4" diam. Stainless Probe with 6-1/2ft wire plus 1/4" compression, 1/8" NPT connector.

Probe Fittings

For use with 5245 and 5246 probes

- AU5254** 1/4" Compression to 1/8" NPT connector fitting and mating 1/4" NPT weld fitting
AU5255 3/16" Compression to 1/8" NPT connector fitting/mating 1/8" NPT weld fitting

- AU5248** Cyl. Head Temp. Spark Plug probe
 Mounts under spark plug, includes 6ft wire

- AU5250** Replacement Probe Kit
 For use with Autometer intake Temp Gauges. Kit includes 1/8" stainless steel racing probe, wire and 1/8" NPT compression fitting.

- AU5251** Replacement Probe Kit
 For use with Autometer Cobalt, C2, ES, GS, NV, Sport-Comp II, Phantom II & Ultra Lite II Pyrometer gauges. Replacement kit includes wiring harness w/gauge connector.

Coloured Lens Kits

For optional colour on Pro-Lite warning lights

- AU3250** Blue lens kit (blue lens & blue night cover)
AU3251 Yellow lens kit (yellow lens & yellow night cover)
AU3252 Red lens kit (red lens & red night cover)
AU3254 Mini Pro-Lite Cover Kit
 Includes blue, yellow and red boots

Extended Length Tachometer Base

The extended length tachometer base replaces the standard base on pedestal mount tachometers. It is 5-1/2" long overall and moves the tach approximately 3-1/2" forward to clear the windscreen when there is not enough room to mount the tach directly on the dash.

Extended Length Tachometer Base

AU5265

Pedestal & Suction Mounts

Autometer pedestal mounts convert in dash gauges to pedestal style so they can be mounted on top of the dash. The suction mount is intended for windscreen mounting of D-PIC gauges and includes a cigarette lighter power harness so it can be easily swapped between vehicles.

Pedestal Mount for 2-1/16" Gauge	AU48009
Pedestal Mount for 2-5/8" Gauge	AU48010
Suction Mount for 2-1/16" D-PIC	AU48011

Universal Dash Top, Triple 2-1/16" Gauges

This universal three gauge dash pod is ideal for any application. Sturdy ABS snap-together construction keeps fasteners hidden and your gauges secure

AU5288

Universal Black Finish

Pillar Pods

Autometer pillar pods mount to the inside of the right hand A-pillar and provide a convenient way to mount gauges in the direct line of sight.

For 2-1/16" diameter gauges.

Direct Fit Gauge Dash Panel

Modification to an original dash can be a daunting task. Auto Meter makes it easy with a range of direct fit replacement dash panels that perfectly house Auto Meter instruments. Made from thermoformed UV protected ABS material, the Auto Meter dash panels are made to last.

CAMARO / PONTIAC FIREBIRD 67-68

- Direct Fit replacement for OEM instrument bezel in 67-68 Camaro/Firebird.
- Fits two 3 3/8" instruments & four 2 1/16" gauges.
- Black finish

AU2130

Direct Fit Chevrolet Camaro / Pontiac Firebird 67-68, 3-3/8" & 2-1/16", Black

69 Camaro

- Direct Fit replacement for OEM instrument bezel in 69 Camaro (SS, RS, Z28, etc).
- Fits two 5" instruments & four 2 1/16" gauges.
- Black finish
- Includes mount for stock headlight switch, stock wiper switch, as well as a steering column cover.

AU2131

Direct Fit Chevrolet Camaro 69, 5" & 2-1/16", Black

70-78 Camaro

- Direct Fit replacement for OEM instrument bezel in 70-78 Camaro (RS, SS, Z28, etc).
- Fits two 3 3/8" instruments & four 2 1/16" gauges.
- Black finish
- Allows for mounting of stock headlight and wiper switches.

AU2132

Direct Fit Chevrolet Camaro 70-78, 3-3/8" & 2-1/16", Black

DASH PANELS & ACCESSORIES

SO-CAL Instrument Panels

Designed in the style of luxury cars of the Thirties, each SO-CAL instrument panel is individually sand cast and polished and comes with an engine-turned stainless steel insert.

Also available in black anodized aluminum.

The panels are available in two sizes: 16 inches wide (5-1/2-inches high) for mounting 5 gauges, and 20 inches wide (5-3/4 inches high) for mounting 6 gauges. Each panel is pre-machined to accept standard 2-1/16-inch gauges (often referred to as 2-inch gauges) and standard 3-3/8-inch speedometer and tachometer. Detailed installation instructions and hardware are included. Gauges are sold separately

S0001-60700	5 gauge panel - aluminium finish
S0001-62201	5 gauge panel - black
S0001-62202	5 gauge panel uncut - black
S0001-60710	6 gauge panel - aluminium finish

Auburn Dash

Available highly polished or satin finish, with engine-turned stainless steel inserts, this Auburn-style instrument panel is machined in-house to accept a 3-3/8" speedo (or tach) and four 2" gauges. The bottom panel can be used to mount switches, ignition key, etc. Because it's a sand casting, this instrument panel, which measures 18-1/2" inches wide by 8" high at the center, can have some minor casting flaws but that's all part of the traditional SO-CAL look.

S0001-62093 Polished Finish
S0001-62094 Satin Finish

SO-CAL Dash Knobs

A: S0001-50405 Art Deco knob—polished
B: S0001-62118 Art Deco knob—black
C: S0001-50400 Speed-style knob
D: S0001-50425 Forty-style knob—polished
E: S0001-62074 Forty-style knob—black
F: S0001-50440 Shoebox-style knob
G: S0001-50433 Bullet-style knob

Add some shine to the interior of your hot rod, custom, truck, VW or whatever with these SO-CAL dash knobs. Machined from aluminum and highly polished, they're easily installed and held in place with a set screw. Heck we've even used them, especially the Art Deco and Forty knobs, as draw knobs on our cupboards and kitchen units. The Art Deco and Forty knobs are particularly great for period restorations.

Clayton Machine Works Dash Knobs

Designed by Paul Atkins these chrome plated dash knobs come in smooth or grooved design and measure 7/8" diameter

Chrome Dash Knob - Smooth CLA-DK802
Chrome Dash Knob - Grooved CLA-DK803

Polished Dash Knobs

RPCR8400POL 1-3/16" length 3/16 Hole Size

LED Shift Indicator Kits

If you already have a Lokar Shifter, or if you are in the market for a new shifter, you can have the best of both worlds; a Lokar shifter and its component LED Shift Indicator with your choice of dash or boot style. The LED shift indicator is completely compatible with many Lokar shifters, past and present. There are a variety of options that can be combined together to give you the exact features you desire.

Features: • Exclusive removable pin locks position without adjustment on installation • Solid state circuit boards and state-of-the-art sensors • Long life LED • Displays only engaged gear

• Billet Aluminum Indicator module and bezels

• Versatile; Control Module compatible with most 12 volt LED Indicators

WIRING HARNESSES

AeroFlow Performance range of universal wiring harnesses complete with fuse box, relays and fuses. Each wire is colour coded and labelled every 6 inches (152.4mm) for the entire length to allow ease of installation in any car, hot rod or race car. These 8, 12 or 21 circuit wiring harnesses will wire up heater, air conditioning, wiper motor, various accessories, turn/hazard signal, relay output, brake switch, instrument cluster and more. The included fuse box is compact perfect for installation in confined areas.

AF49-1500 8 circuit wiring harness

AF49-1501 12 circuit wiring harness

AF49-1502 21 circuit wiring harness

Dual Fan Relay

AeroFlow's Performance dual fan relay and wiring harness kit is essential with an twin electric fan setup. This universal kit will prevent voltage drops and amperage overloads which can cause havoc to your electrical system. It includes 2 automotive 12 volt 40 amp relays, 2 30 amp circuit breaker, all crimp fittings and a prewired relay blocks for ease of installation.
