LICENSE PLATE BRACKET (SS); FITS - 1932-64 PICKUP

At 65 miles an hour (or more) a lot of pressure is exerted on these brackets as there is nothing aerodynamic about a license plate. That's why we stamp ours from heavy gauge steel. They're built tough and can take a 65 mph breeze with gusts up to 100 mph. Dimensionally they are identical to original and are ready to bolt on. You are guaranteed a high-quality, and long lasting product.
Polished Stainless Steel.

AIR CLEANERS

NOTE: WARRANTY VOID UNLESS SERVICED WITH AEROFLOW CLEANING KIT AF2000-5050

AIR FILTERS

Stand out from the crowd with a magnificent looking Aeroflow air cleaner.

These air cleaners are stamped from high quality steel. Available in many different great finishes and styles for that custom look you are after. Chrome-plated or black finish with reusable/washable or paper elements. Aeroflow's air filter assemblies work with all popular 5-1/8" (130mm) diameter carburetors. The 14" (355.60mm) air filter assemblies come with a drop base that sits 1-1/8" (28mm) below the carburettor.

CHEVROLET SLANT EDGE AIR CLEANERS

Slant-Edge Air Cleaners are the perfect way to complete your dress-up look in premium Slant-Edge style. Whether you have Slant-Edge valve covers, or a set from a different series, these air cleaners with prominent raised or recessed emblems will bring your engine look together in head turning fashion. They are supplied with a genuine 3" GM air filter elements for maximum airflow. The air cleaner lid attaches to a short stud that is screwed into the centre of the carburettor. Lid has a threaded boss on the underside, and is simply spun into place by the installer. Each kit is supplied with necessary mounting hardware. Technical Note: After installing a new air cleaner, always lower the hood slowly to confirm sufficient clearance visually. Minimum clearance of 3-3/4" is required from the top of the carburettor gasket area to the underside of the hood. The air cleaner bases are recessed for a low profile appearance, maximum performance, and hood clearance. Patent Pending.

STEEL CADILLAC AIR CLEANER

Based on the style and dimensions of the 1951-56 Oldsmobile and Cadillac air cleaners. This exciting new product will look at home in any street rod, hot rod, or traditionally styled period perfect car. Measuring a whopping 18-1/4" wide, our air cleaner is no wimpy, scaled-down version of this classic design. This new air cleaner has the same external dimensions as the original Oldsmobile oil-bath part. However, our version uses an off-the-shelf 14 inch diameter by 4 inch tall filter element. No fiberglass construction here, steel is real! Stamped from heavy gauge steel, fully spot welded together and then powder coated in a tough semi-gloss finish. The electroplated air cleaner base is also stamped steel and is designed to fit most carburetors and throttle bodies. The air cleaner is notched at the rear to provide clearance for the large diameter, GM, HEI distributors. Not content with anything normal, we designed and produced a unique wing nut to complement the air cleaner. This chrome plated, rocket shaped nut was modeled after 50s era space vehicles and measures nearly 1- 1/8 inches tall. Ships as a complete, ready-to-install kit including housing, base, element and nut.

TN8510 Steel Caddy/Olds Air Cleaner (7/8" scale)

Ford Racing Air Cleaners FORD PERFORMANCE

These premium 13" diameter air cleaners feature Ford Racing, Ford Mustang, or Ford Cobra emblems for the perfect customized look. They fit 2V and 4V carburetors, and are supplied with a 2-5/8" high filter element. Both the tops and bases have matching finishes, and each kit is supplied with necessary mounting hardware including special die cast Ford oval centre nuts (also offered separately). Note: Minimum clearance of 4" is required from the top of the carburetor gasket area to the underside of the hood.

AIR CLEANERS

These classic styled air cleaner kits are equipped with the CHEVROLET Trademark, and are supplied with genuine GM (AC) air filter elements for maximum airflow. Both the tops and the bases are chrome plated to exacting standards for long-lasting appearance, and each kit is supplied with necessary mounting hardware. The classic air cleaner kits are supplied with special die-cast Bowtie center nuts (also offered separately). The 14" air cleaner kits are supplied with 3" tall filter and other sizes are available from K&N. The bases of the 14" air cleaner kits are recessed for a low profile appearance, maximum performance and hood clearance.

Technical Note: After installing a new air cleaner kit, always lower the hood slowly to confirm sufficient clearance visually. Minimum clearance of 3-3/4" is required from the top of the carburetor gasket area to the underside of the hood.

PR66801 14" Deluxe Air Cleaner

Edelbrock

CHROME AIR CLEANERS

Pro-Flo®

Chrome Air Cleaners

Top off your engine with a good looking Pro-Flo air cleaner. The Edelbrock signature and styling coordinate beautifully with Edelbrock Signature Series valve covers. These air cleaners are stamped from 18-gauge steel and triple chrome-plated for a high-quality finish and great looks.

Round Air Cleaners

Edelbrock triple chrome-plated round air cleaners work with all popular 5-1/8" diameter carburetors (Performer Series, Holley, Thermo-Quad, Quadrajet and Carter AFB). The 10" and 14" models have knock-outs in the air cleaner base and include an adapter for crank case ventilation. #1208, #1209 and #1221 fit all Edelbrock carburetors. Heights of air cleaners are in parentheses, measured from the gasket flange to the top of the supplied retaining nut. Dimensions are accurate within 1/8".

- ED1207* 14" diameter with 3" element (3-5/16")
ED1221* 14" diameter with 3" element, 3/8" deeper flange (3-3/4")
ED1208* 10" diameter with 2" element (3-1/2")
ED1209* 6" diameter with 2" element, 5-1/8" base (3-5/8")
ED8092 Air Cleaner Spacer (3/4")
ED8093 Air Cleaner Spacer (1/2")

NOTE: #1207 is stock height and requires spacer #8092 with electric choke carbs or banjo fitting #8089 with manual choke carbs. #1221 fits all Edelbrock square-bore carbs and Q-jets (3/8" taller than #1207).

Oval Air Cleaners

Available for Edelbrock single and dual-quad applications, these oval air cleaners clear HEI distributors and all stock components. #1235 fits Edelbrock low profile dual-quad manifolds and others with 6-7/16" carb center-to-center. They come with high-quality K&N 2-1/2" washable, pre-oiled cotton gauze filter for excellent filtration. Overall dimension is 13-1/2" x 7".

- ED1235* Oval for Dual-Quads (3-1/2")
ED1236* Oval for Single 4-Barrel Carburetor (3-1/2")

Triangular Air Cleaner

The Signature Series Triangular Air Cleaner is a new style with a shape reminiscent of the muscle car era. This hot looking chrome air cleaner has the classic Edelbrock signature. This triangular air cleaner comes with high-quality K&N 2-1/2" washable, pre-oiled cotton gauze filter for excellent filtration.

Designed for use with 5-1/8" diameter carbs (Edelbrock square-bore, Q-Jet, etc.), the Pro-Flo #1222 clears HEI distributors and electric choke housings. Air cleaner dimensions: 14-1/8" wide x 13-3/8" long.

ED1222* Pro-Flo Chrome Triangular Air Cleaner (3-1/2")

Edelbrock Signature Series Air Cleaners

Edelbrock Signature Series Black powder coated finish round air cleaners work with all popular 5-1/8" diameter carburetors

(Performer Series, Thunder Series AVS, Holley, Thermo-Quad, Quadrajet and Carter AFB). The 10" and 14" models have knock-outs in the air cleaner base and include an adapter for crankcase ventilation. Overall height is measured from the gasket flange to the top of the supplied retaining nut. #1223 has a 3/8" relief in the bottom for added hood clearance.

with black powder coat finish (3-3/4" tall) ED1203

Signature Series 14" Air Cleaner with

black powder coat finish (3-1/2" tall) ED1223

Pro-Flo 1000

Reusable Air Cleaner

Pro-Flo 1000 Series reusable air filter offers superior flow capacity, low profile, good filtration, performance benefits and long-term savings. This air cleaner fits carburetors with a 5-1/8" air horn and has an overall height of 3". Inside every Edelbrock Pro-Flo 1000, you'll find our exclusive reticulated urethane foam element. Maintaining Pro-Flo's foam element is simple. Just release the spring clip, remove the element, wash in hot, soapy water, rinse, dry and reassemble. If necessary, replace with element ED1099.

CLASSIC SERIES AIR CLEANERS WITH POLISHED FINISH

This new line of air cleaners was created to perfectly match our popular classic aluminium finned valve covers. Three models for single or dual-quads give you plenty of options for that "just right" look on any nostalgia rod. Additionally, the small oval air cleaner provides adequate hood clearance in demanding applications as well as a coordinated appearance with the classic finned look. These air cleaners work with all popular 5-1/8" carburetors.

ELITE II SERIES ROUND & OVAL AIR CLEANERS

Introducing the next generation of Elite Series accessories... Elite II. This new line of accessories features a design that is influenced by the original Elite Series originally released in 1985, but with a new modern take on this classic look. They're made from heavy-gauge, die-cast aluminium and are finished off with a show quality high luster polished finish. The raised fins are accented by a contrast gloss black finish between the fins for the definitive Elite Series look.

Our Elite II round air cleaners fit all popular 5-1/8" diameter carburetors and include a black anodized knurled nut. They come with a high-quality 3" pre-oiled, washable and reusable Pro-Flo Universal filter with the exclusive Pro-Charge™ clean strip for easy maintenance and excellent filtration. Our oval air cleaners are designed to fit Edelbrock single- and dual-quad applications and should clear HEI distributors and stock parts. They come with high-quality 2-1/2" washable, pre-oiled reusable filter for excellent filtration. Overall oval air cleaner dimensions are 13-5/8" x 7-3/16".

VICTOR SERIES AIR CLEANERS WITH BLACK POWDER COAT TEXTURE FINISH

Edelbrock Victor Series air cleaners feature a die-cast aluminium lid that is black powder coated with a finely textured surface for a pleasing and unique appearance. This is the same finish you'll find on our other new Victor Series accessories. These air cleaners work with all popular 5-1/8" carburetors or 4-bbl. throttle bodies and includes a knock-out in the base along with an adapter for crankcase ventilation. Number in parenthesis is overall height from base to top at the highest point.

Stromberg Stainless

Steel Bug Dome

Bug Domes will keep the big pieces out of your 2 barrel carburetors. Perfect for your traditional carburetors like Stromberg 97, 81 or 48 and Edelbrock / Holley 94. Since they fit within the I.D. of the carb throat, you can use them with popular slip over accessories such velocity tubes. These also fit the Chevy one barrel Rochester with a little massaging. Made in USA this "Bug Dome" is very sturdy the flange and the mesh does not bend even when heavy pressure is applied. The flange is 2 1/8" it widens out to about 2 1/4 at the lip were it sits in the carb's throat. Height comes in at 1 7/8 from bottom of flange to top of "bug" screen.

Description Stromberg S/S Bug Dome

Tall Velocity Stack Air Filters

Open 360° free breathing filtercharger element on top of a 5" high stainless steel velocity stack base. More horsepower from channelled airflow. Downdraft direct into carburettor. Draws cooler air up and away from engine heat. More non-turbulent air. Engines equipped with the K&N Tall Velocity Stack Air Filter actually produce MORE horsepower than those with no filtration at all. All stainless steel top and base, highly polished to a mirror finish. Available with 5-1/8" flange to fit Holley, Carter or Rochester carburetors. Also available with 7-5/16" flange to fit Holley Dominator carburetors. Nine inch diameter allows side by side mounting on most dual carburetted setups. Choice of two element heights assures proper airflow for virtually any engine. Ideal for street rods.

K&N
THE WORLD'S BEST AIR FILTER

K&N RACE SPECIFIC AIR CLEANERS LID FOR ON-ROAD RACING USE

K&N pavement only race air filter utilizes special 2-ply cotton gauze and is built in a common 14" outside diameter

As a result these are intended for racing use on paved surfaces only. Ideal for road courses, oval tracks, or the drag strip where only minimal engine protection with almost unrestricted airflow is sought after. These filters are cleanable and reusable using standard K&N air filter service products. They can be run oiled, or dry, for racing on paved surfaces only.

X-Stream Air flow Top Plates

Add 1000 CFM of air flow to your current 14" filter assembly with this revolutionary design. Having the air enter through the top plate filter assembly does not cause turbulence but actually helps draw air in from the side and gets the air headed down the carburettor or fuel injection system, right where you want it. Also available in 9" and 11".

FlowControl

A Revolution In Air Cleaner Technology

The Flow Control System utilises a newly designed base in combination with a unique lid, featuring a tongue or protrusion, that reduces intake turbulence. The resulting smooth, laminar flow enhances cylinder filling, horsepower, and torque. The filter element is the world famous K&N Filtercharger® for the ultimate in airflow and filtration. The result of this powerful combination is a typical 20HP increase on a 350 cu. in. engine.

Part No	Dia.	Drop	Ele. Ht.	off set	Ht. above carb

2 Barrel Models

2-Barrel Holley with and without choke tower
Circle Track Magazine discovered this model and featured it in one of their issues. That started the racers calling. Fits the very popular 4412 Holley 2-barrel by removing the choke assembly and leaving the choke tower untouched. Gigantic increase in air flow and lots of horsepower. The small block with about 340-360hp can expect 15-17hp increase. In the 400-420hp range the range increase climbs to 20-22hp. If your engine builder tells you that is impossible, just take one to him and run it on the dyno.

With choke tower

KN61-2000 14" x 4.0

Without choke tower

Fits 2 barrel Holley with choke tower removed. Flows exactly the same as 61-2000 and 61-2010.

KN61-2020	14" x 4"
KN61-2030	4" x 4.5"

4 Barrel Models

4-Barrel Holley without choke tower
The inspiration for this particular air cleaner was the 390 cfm Holley. Many tracks and racing organisations use this carburettor as a restrictor. Flows plenty on the 390 and you can pass it all the way up to the mighty 850 and it keeps on making horsepower. Complete with all parts necessary.

KN61-4000	14" x 4.0"
KN61-4010	14" x 4.5"

For those of you who have not modified your choke tower, this is just the ticket for your bracket car or late model sportsman.

Fits 390-800 w/choke	
KN61-4020	14" x 4"

4 Barrel Holley Dominator

The newest addition to the K&N Flow Control Air Cleaner line is specially designed for all Holley Dominator carburetors, including Holley's HP Series. This Flow Control Assembly takes full advantage of the 360deg. air delivery system by using K&N's 4-1/2" Filtercharger. Using this assembly will produce a whopping 1200CFM which will be more than enough air for any motorsports application.

KN61-6000	14" x 4.5"
-----------	------------

Replacement Air Filter Elements

All of the air cleaner assemblies listed were developed as compete kits. A lot of time and effort went in to each combination of parts and dimensions for the intended carburettor. Keep them that way for best results.

KNE-3730	14" x 4"
KNE-3732	14" x 4.5"
KNE-3804	16" x 3.5"
KNE-3806	16" x 4"

Custom Air Filter Plates

K&N's 14" air filter plates are available separately for replacement or special applications. Base plates fit carburetors with 5-1/8" airhorn flange. Drop base will not clear all electric choke mechanisms, it may be necessary to space up baseplate with a locally available air cleaner spacer.

KN3365	9" DOMINATOR BASE
KN85-6842	UNSTAMPED 7-5/16" NECK
KN85-3540	14"OD top plate Chrome plated steel, centre rises 1", stamped with the K&N Logo
KN08006	14"OD 1-1/2" offset base plate
KN85-3552	Chrome plated steel, 5-1/8" flange.
	Offset Stud
	14" O.D. flat base Nylon reinforced plastic, 7-5/16" flange (raises filter 3/4" above carb flange)

14-inch Super-Deep Aluminum Air Cleaner Base

The popular deeply-recessed air cleaner base from the Super-Light Bowtie Emblem air cleaners is now available for any application.

This deep base will allow for nearly every carb application including electric choke carbs allowing the air cleaner to sit low enough to shut the hood!

PR66808 Recessed Air Cleaner Base

Replacement Base

for 5-1/8 neck
RPCR2195B
14" Air cleaner drop base only, 7/8 recessed base 4150.

RPCR5195B
14 X 3 Air cleaner base only, off set recessed base.

Replacement Elements

RPCR2110	Air cleaner element only round 14" x 3"
RPCR2111	Air cleaner element only round 14" x 2"
RPCR2113	Air cleaner element only round 10" x 2"
RPCR2116	Air cleaner element only round 6-3/8" x 2-1/2"

Carburettor Stubstack

The K&N Stubstack reduces turbulence, improves metering accuracy. Increases the airflow by reducing restriction. Straightens and speeds up air-flow.

AIR FILTER APPLICATION:

The stubstack is designed to only work effectively with K&N Filtercharger™ elements and 360° custom air cleaner assemblies. If the stubstack is installed in an improper housing, the performance may actually drop! The minimum height above the stack needs to be at least 1-1/2" for proper operation.

Holley 2300

Fits most Holley 2300 Series carburetors. The Stubstack is designed to fit 2 barrel popular models within this series. Holley carburettor list numbers are stamped on the choke horn.....KN85-0210

Carb. List No.	Model No.	CFM rating
0-4412	2300	500
0-6425	2300	650
0-7448	2300	350

Holley Sq. Bore w/Milled Choke Horn

This stubstack is designed to be used on Holley 390-850cfm square bore carburetors (4150/4160), that have had the choke horn milled off, but do not use an air cleaner. Full radius design helps to increase the airflow for drag racing. Will also hold down the base plate of a cold air scoop. Will not work with K&N Custom Chrome Racing Air Cleaners.....**KN85-0500**

Holley 4150/4160

Fits most Holley 4150 and some 4160 Series carburetors with high and low choke horns. The 85-0200 is designed to fit 4 barrel popular models in this series. Holley carburettor list numbers are stamped on the choke horn.**KN85-0200**

Holley Sq. Bore w/Milled Choke Horn

This stubstack is designed to be used with Holley 390-850cfm square bore carburetors (4150/4160), that have had the choke horn milled off and still use an air cleaner. Will work with all K&N Custom Chrome Racing Air Cleaners, including Tall Velocity Stack Air Cleaners.....**KN85-0400**

Holley Dominator

This stubstack is designed to be used on Holley 1050 & 1150 cfm Dominator carburetors. Will not allow use of a standard air cleaner housing, but it will hold down the base plate of a cold air scoop. Straightens airflow and helps even out the flow to all four venturies. Decreases the restriction around the throttle bores.**KN85-0600**

Custom Chrome Assemblies

compatible with Stubstack 85-0200, 85-0210 ONLY!

K&N P/N	Diameter	Total Hght
KN60-1180	11" O.D.	41/2"
KN60-1200 (w/vent)	11" O.D.	6"
KN60-1210 (w/vent)	11" O.D.	7"
KN60-1260	14" O.D.	5-5/8"
KN60-1270	14" O.D.	6-5/8"
KN60-1300*	14" O.D.	4-3/4"
KN60-1310*	14" O.D.	5-3/4"

CARBURETTOR SUBSTACK for Edelbrock Carbs

K&N Substack for EDELBROCK Square-Bore Carburetors - Fits most Edelbrock Square-Bore carburetors. This Substack is designed to fit almost every model within this series. It straightens and speeds up airflow, reduces turbulence, improves metering accuracy and increases airflow by reducing restriction. Will also fit some Carter AFB models.
KN85-0700

Ram Tube Air Filters For Fuel Injectors

Individual Round Style

Hilborn 4, Injectors Fitted to Honda and Kawasaki Engines in T.Q. Midgets Air filters designed to fit over stock, uncut ram tubes. Filters come complete with rubber mounting adapters. To install, fit rubber adapters around ram tube bases and fit filters over ram tubes and clamp onto adapters in desired position. Air filters come with chrome end caps. Fits #45-K-4A and #45-H-4B Hilborn injectors.
KNRD-1004 Filters measure 3"

O.D. x 6" L & fit 1-1/2" ram tubes Set of 4

KNRD-1400 Hilborn Injector #F414A, for Turbocharged tractor, air filter clamps over 4" lip on cast ram tube. Air filter measures 7" dia., 6" long.

KNRD-1300 Hilborn Injector #524, for 80 c.i. Magnuson Blower Head. Filter fits 3" ram tube. Measures 7" dia., 6" long

Racing Cone Filters

The filters fit into the air scoops and allow plenty of fresh clean air to enter the engine, but keep the small stones, tire dust and other racetrack debris from demolishing the engine. There is a hole at the small end of the filter to allow debris to exit the air scoop. The filters were designed for the vehicles listed below, but can probably be adapted to a wide variety of applications.

Application	A	B	C	K&N P/N
Tiga Sport 2000	5-1/2"	2"	16"	KN28-4115
Ralt Formula Atlantic, Super Vee	4-7/8"	2"	16"	KN28-4125

Custom Racing Air Filters

Custom Clamp-on Air Filters

For Racing vehicles using VW engines
Universal air filter designed for 2-1/16" VW Solex and 2-9/16" Zenith-Holley carburetors. One piece construction with a strong rubber base and flange that clamps directly to the carburettor. Some units have 1/2" vent kits included, for easy installation of vent hoses. Choice of show quality chrome or economy rubber top. Chrome adds the touch of class - rubber for the rugged off-road use. Three shapes or styles and numerous heights available - see listings below.

Airforce Pre-Cleaner Wraps

The K&N Airforce Pre-Cleaner is a specially designed foam filter wrap made to extend the service interval of your K&N Filterchanger when used in very dusty conditions. They are made from large, open cell foam. The Airforce Pre-Cleaner will stop 90% of the dirt, yet only add a 2% restriction to the airflow of the filter. The Airforce Pre-Cleaner is designed to be used with any foam filter oil and must be cleaned with gasoline or solvent. The Airforce Pre-Cleaner is custom made to fit each application, and there are 4 universal cut-to-fit sizes available.

Precharger Filter Wraps

What is a Precharger?

The K&N Precharger is a specially designed filter wrap made to extend the service interval of your K&N Filterchanger when used in very dusty conditions. They are made from a highly durable polyester material containing uniform micron openings.

The Precharger will stop dirt particles as small as .005" in diameter, yet add less than 10% restriction to the airflow of the filter. The Precharger is designed to be run dry and can be cleaned with K&N Filter Cleaner. The Precharger is custom made to fit each application. Double stitched elastic openings assure that the Precharger will stay in place.

The Prechargers are available in a variety of colors, all with a silk-screened K&N Precharger logo.

THE WORLD'S BEST AIR FILTER

Custom Air Filters For Weber Carbs

K&N Custom Air Filter kits are designed to allow the maximum performance from your carburettors, yet keep the dirt on the outside where it belongs. Show quality to fit racing vehicles with VW, Pinto or any other engine equipped with these performance carburettors. All assemblies come with custom chrome top and base plates (except IDA Triple) and the Famous K&N Hi-Flow Washable Air Filter. All assemblies are convenient to clean and service.

Custom Plenum

The plenum is designed to fit most American 4 barrel carburettors that have a 5-1/8" flange. Also will fit the Weber DGV carburettor when used with K&N adaptor 85-1061. Designed for cold air intake, plenum has a single snorkel outlet that can be fitted with a 4" I.D. hose running to a remote air filter. A K&N universal filter with a 4" flange can also be clamped directly on the snorkel as well. The outside diameter of the plenum is 9" and the snorkel sticks out 6" from the centre of the plenum. Minimum clearance required above the carburettor flange is 3-1/8". NOTE: The custom plenum is recommended for small displacement engines (less than 200 C.I.) or low revving V6-V8 engines.

KN85-1060

Custom Plenum

Weber DGV Air Cleaner Adaptor

K&N's complete selection of custom round air cleaners (5-1/8" flange) can now be adapted to the ever popular Weber DGV series carburettor.

You now have a choice of air cleaner diameters from the MINI seven inch all the way up to the BIG FOURTEENS. Select from OPEN 360° custom chrome, tall velocity stacks, or even the full size custom plenum. Even the 14" drop base air cleaner can be used.

Keep in mind that the flange must be 5-1/8" ID to work with the DGV adaptor.

K&N DGV adaptor comes complete with gaskets and mounting hardware - EXCEPT customer must provide 1/4-20 centre stud.

AIR CLEANER STUD ADAPTER

- Allows Moroso and other air cleaners with 1/4" stud and wing nut to be used on carburettors with a 5/16" mounting hole
- One end of the adapter features a 5/16" -18 male thread that screws into the carburettor, the other end features a 1/4" -20 female thread that accepts a standard air cleaner mounting stud
- Clear zinc plating resists corrosion
- Overall length: 7/8"
- One per pack

CARBURETTOR SCOOPS

Street Scoop Conversion Kits & Parts

Mr. Gasket now offers two conversion kits to convert the popular, award winning Street Scoops from one 4-bbl. to two 4-bbl. carburation and vice versa. Each kit includes all the necessary components (except carburetors and intake manifolds) needed to make the desired conversion. The one 4-bbl. to two 4-bbl. kit includes: air cleaner top, filter element, mounting flange, throttle linkage, miscellaneous hardware as required.

MG6652 Converts 6651 scoop to 6650 specs
The two 4-bbl. kit includes: cast aluminium mounting flange, throttle linkage rod, carburettor stud.

MG6653 Converts 6650 scoop to 6651 specs

MG3808G Replacement butterfly and shaft kit

The Street Scoop II

Gives the competitive look of a fuel injection scoop. 14-1/2" long, a full 5-1/2" shorter than the 20" street scoop! Ideal for V6 and V8 engines. The Street Scoop II is a precision cast-aluminum unit that is fully machined and polished to a high luster. The three large diameter butterflys are red anodized and operate off the carburetor linkage. Street Scoop II comes with one air cleaner, butterfly assembly and all necessary hardware. Designed to bolt-on most 4-bbl carbs on single 4-bbl intake manifolds and tunnel ram intake manifolds and superchargers that use one 4-barrel carbs with 5-1/8" diameter neck.

MG6658

Aluminium Street Hood Scoop

Comes with three "round" inlet butterflys (20" long). Fits carburetors with 5-1/8" neck. Adjustable centerline on dual quad (7-3/4" to 9-1/4"). Includes 6-3/8" x 2-1/2" paper element & mounting hardware. Flaps reversible. Available in red or black. Adapter plates included for either dual or single applications.

RPCR5247BK Black Full Fin

Hilborn Style Air Scoops

Authentically styled air scoops are made from high quality aluminium castings. Available to fit single and dual carb applications using carburetors with 5-1/8" diameter necks. Dual carb scoop features an adjustable base to fit carburetors with 7-5/8" to 9-1/4" centre line spacing. Beautifully polished to a high lustre, these scoops come with a chrome plated inlet screen and bezel and are complete with all necessary mounting hardware. Use replaceable paper filter elements.

Polished Aluminium

MG5232

Single Four Barrel Air Scoop

MG5233

Dual Four Barrel Air Scoop

Aluminium Hood Scoop

Hilborn-Style with inlet screen and bezel (20" long x 5" tall). Adjustable centerline on dual quad (7-3/4" to 9-1/4"). Fits carburetors with 5-1/8" neck. Polished with fins.

RPCR5235 - Single Quad

RPCR5233 - Dual carb POLISHED aluminium Hilborn style scoop.

RPCR5233 - Hood scoop replacement mounting hardware.

RPCR5229 - Hood scoop replacement 6" air cleaner lid.

Small Aluminium Hood Scoop

Polished aluminium Hilborn style scoop with inlet screen and bezel. 13-1/2" long x 4-1/2" tall. Fits single carburettor with 5-1/8" neck. Includes 6-3/8" x 2-1/2" paper element and mounting hardware.

RPCR5245

Smooth

RPCR5246

Finned

Shotgun Scoop

Cast aluminium scoops. Polished with two paper filters. Can be mounted on any single or dual 4 bbl carb. Come in plain or Ribbed style.

RPCR5236 Plain smooth polished shotgun scoop

RPCR5234 Ribbed / finned polished shotgun scoop.

Blower Shop Dual Carb Blower Scoop

Polished aluminium dual carb blower scoop kit for standard 4150 style carburetors, inline or sideways (8-5/8" centre to centre) application. Complete with pre-oiled/washable air filters and top plates. Includes all mounting gaskets and hardware (1/4-20 & 5/16-18 studs and flange nuts) for Demon or Holley applications.

B5510 Dual carb scoop kit:

Inc Filters, Top plates, gaskets & hardware.

Air Cleaner Velocity Stack

Chrome steel with washable foam element. Fits single quad carburetors with 5-1/8" neck. 5" steel stud with wing nut included. **RPCR2104**

Carburettor Intake Plenums

These intake plenums mount to any carburettor or throttle body with the standard Holley 5-1/8" flange. They feature 4" intake pipes to attach piping or a clamp on filter and are perfect for blow through forced induction or cold air induction systems. Standard units are 3.5" tall and low profile units are 2.4" tall.

Standard Single Intake Plenum (polished)	SPE-9849
Standard Dual Intake Plenum (polished)	SPE-9859
Low Profile Single Intake Plenum (polished)	SPE-98499
Low Profile Dual Intake Plenum (polished)	SPE-98599

BONNET SCOOPS

Reverse Cowl Scoops

Reverse cowl scoops take advantage of the high pressure zone at the base of the windscreen to provide positive air intake. **These scoops are extra large but they can be cut to length and come in 3 different heights.**

Length x Width x Height	Part Number
1320mm x 690mm x 100mm	RP-REVSCOOP-4
1320mm x 690mm x 150mm	RP-REVSCOOP-6

Bonnet Scoops

Rocket Products fiberglass bonnet scoops come in a variety of styles and sizes to suit everything from tough streeters to Pro-Stock drag cars.

565mm x 350mm x 525mm		RP-SCOOP DR/ALT

Moroso Hood

Scoop Plug

Open cell foam plug prevents debris, dirt and moisture from entering your engine. While parked or while towing the car. Fits 4.0" x 10.25" openings. **MO99435**
Fits 3.5" x 12.5" to 3.5" x 13.75" openings. **MO99430**
Fits RP-SCOOP4LIP (Does not fit other RP Scoops)

NHRA Pro Stock Composite Bonnet Scoop

This ultra strong and light carbon fibre scoop was designed using computational fluid dynamics (CFD). This design provides an 18 lb. decrease in drag. The K&N scoop also produces more even air distribution inside the scoop, which helps naturally aspirated engines run better and produce more power. In addition to NHRA's Pro Stock class, the scoop can also be used in Super Stock, Super Gas, Top Sportsman, Pro Mod classes and other racing applications.

ORION UNIVERSAL AIR INTAKE SYSTEM

K&N's Orion air intake system is a universal cold air intake system. The Orion assembly is designed to increase volumetric efficiency and engine horsepower. The Orion incorporates a K&N famous cotton gauze air filter which is removable for periodic cleaning and provides the benefit of an open cone filter and standard air box in one unit. The plastic injection-moulded housing acts as a heat shield to prevent any power loss. Assembly designs were flow tested for many hours before our engineers completed the Orion's shape to provide high flow with low restriction and great filtration all in a small space. Included in the box is a template to cut your own vinyl wrap for personal customization of the housing. The assembly comes with a 76mm air filter base flange and a 100mm housing intake diameter. The filter base incorporates a 1/4 inch NPT threaded fitting to attach an optional vent adapter.

- Designed to increase horsepower and acceleration
- Includes injection-moulded filter housing
- Washable and reusable lifetime air filter, includes moulded velocity stack
- Flow tested assembly for optimal air flow and minimal pressure loss
- High air flow with excellent filtration
- Mounting hardware, vent adapters and cold air hose separately available

4" (100mm) Inlet 3" x (76mm) Outlet **KN54-5000**
Replacement Filter for KN54-5000 **KNE-3051**

Universal Apollo Induction Systems

The K&N Apollo Cold Intake System is also available as a universal cold air intake system incorporating a washable/reusable K&N High-Flow Air Filter. The Apollo's specially designed shape increases volumetric efficiency and provides the benefits of an open cone filter and standard air box in one unit. It comes with a standard 70mm base flange with a range of optional stepped adaptors available to allow fitment to other intake sizes.

Apollo Closed Intake System - Black	KNRC-5052AB
Apollo Closed Intake System - Blue	KNRC-5052AL
Apollo Closed Intake System - Red	KNRC-5052AR
Apollo Closed Intake System - Silver	KNRC-5052AS

Apollo Cold Air Induction Systems

K&N Apollo Cold Air Induction Systems incorporate a washable/reusable K&N High-Flow Air Filter within a protective shell. They come with custom mounting hardware to fit specific vehicle applications. The Apollo's shell reduces heat build-up and feeds cool air into your engine, resulting in improved volumetric efficiency and increased power gains. Apollo Cold Air Induction Systems allow for updating your vehicle's intake system while retaining a closed environment.

Apollo Performance Air Induction Kit For Subaru Impreza

K&N has designed a new performance air induction kit (KN57A-6044) for a wide range of models in the 2007, 2008 and 2009 Subaru Impreza line with a 2.5 litre engine.

The custom design of the KN57A-6044 is made using K&N's Apollo air filter enclosure along with a K&N air filter. The Apollo's protective shell provides the benefits of an open cone filter and standard air box in one unit.

The K&N performance air intake system comes with adaptors to fit the Subaru Impreza. By using a CNC mass air sensor pad, K&N keeps your Subaru running within the factory settings. The 57A-6044 also provides excellent filtration and additional power to the engine. The removable cold air feed attachment on the Apollo allows outside air to enter the unit. Zip ties are also provided to secure the hose in position. It takes about 90 minutes or less to install this kit using simple hand tools.

Part No: KN57A-6044

2007 SUBARU IMPREZA WRX 2.5L
2007 SUBARU IMPREZA 2.5L

DELTA FORCE
PERFORMANCE INTAKES BY DESIGN

DELTA FORCE AIR INTAKE KIT

Flowmaster now delivers the next step in attaining maximum performance & efficiency for your vehicle. Introducing Flowmaster's Delta Force Cold Air Intake systems now available in dry filter or oiled filter configurations. All systems feature ultra-trick looking durable cross-linked polyethylene intake tubes with a large high-flow conical shaped 8-layer cotton gauze air filter ensuring it will trap more dirt/dust particles than a typical 6-layer filter, or a dry synthetic media filter with an included pre-filter wrap to help protect from excess dirt particles and extend the filter life. Both have Flowmaster logos molded in the intake tubes showing others you're serious about quality and performance. Other features include a custom designed black powder-coated air dam, high quality multi-layered reinforced silicone couplers, anodized aluminum fittings with stainless steel hardware.

- Cleanable 8-layer Cotton Gauze Air Filter or Dry Synthetic Media Filter with Pre-filter wrap
- Roto-molded Cross-linked Polyethylene (XLPE) High Flow Intake Tube
- Unique Custom Finned Design Intake Tube with Flowmaster Logo
- Uses Factory Mounting Holes for Easy Installation
- Multi-layer Reinforced Silicone Couplers
- No Tuning Required

TYPHOON INTAKE SYSTEMS™

Built for performance and show, the Typhoon Air Intake System is a free-flowing mandrel-bent aluminium tube induction system designed to fit many sport compact performance vehicles. Each kit is proven on a rear-wheel dynamometer to increase horsepower and torque. They come with an oversized High-Flow conical air filter designed to provide even more airflow at lower restriction than a standard K&N O/E replacement filter that is limited to the size of the factory air box.

2015 & 2016 Ford Mustang GT 5.0L V8 TYPHOON INTAKE KIT

The K&N 69-3535TP Typhoon air intake system is a free-flowing, mandrel-bent aluminium tube air induction system designed to fit 2015 & 2016 Ford Mustang GT 5.0L V8 models. The restrictive factory air filter and air intake housing are replaced by the K&N Typhoon air intake which is designed to dramatically reduce air flow restriction as it smoothes and straightens air flow. This allows your engine to inhale a larger amount of air than the factory air intake. More air means more usable power and acceleration throughout the engine's RPM range. In addition to more power, this air intake system improves engine sound with more aggressive and deeper acoustics during acceleration. The 69-3535TP air intake comes with a chrome topped K&N high-flow air filter and a heat shield that installs into the original air box space.

K&N 69-3535TP

Mustang Blackhawk Induction Air Intake System

- Guaranteed to increase horsepower
- Designed to improve throttle response and engine sound
- Washable and reusable air filter
- Made from all black components
- Lasts up to 100,000 miles before service is required (depending on driving conditions)
- Easy to install, usually in 90 minutes or less
- Washable and reusable lifetime air filter
- K&N Million Mile Limited Warranty

The K&N 71-3535 Blackhawk Induction Air Intake System is a free-flowing, mandrel-bent aluminum tube air intake system that is guaranteed to gain power. It replaces the restrictive factory air filter and air intake housing on specific Ford Mustang GT models. This low restriction air intake allows your engine to inhale a larger amount of air than it would from the stock air intake. More air means more power and acceleration. This K&N Blackhawk Induction Air Intake System comes with black components including the K&N high-flow air filter with heat shield. The attractive textured black powder-coated tube features a welded, engraved K&N plate giving you a clean, high-performance look under the hood. The intake tube accommodates the factory mass air sensor as well as the crank case vent, idle bypass and EVAP vent hoses. The oversized cone shaped air filter is made from an oil-free synthetic filter media that can be used for up to 100,000 miles before cleaning is needed depending on driving conditions. This air intake is relatively easy to install usually in 90 minutes or less using the existing factory mounting points using commonly available tools.

K&N 71-3535 Mustang Blackhawk Induction Air Intake System

AirCharger® Intake Kits

A sister product to 57 Series FIPK, 63 Series Intake kits or AirCharger® Intakes are built for many different vehicles and represent a dramatic improvement over a K&N O/E replacement filter alone. The World's Best Flowing, Best Filtering, High Performance Air Intake Systems

- * Guaranteed to Provide more HP and Increased Acceleration. * Engineered to Specific Vehicle Design.
- * Easy to Install, Usually in 90 minutes or less!
- * Lasts up to 100,000 Miles Before Service is Required (depending on driving conditions).
- * Replaces OEM Filter and Air Box. * Air Filter is Washable and Reusable
- * Works with Original Equipment Manufacturer Computer Systems
- * Designed to use Factory Holes & Mounting Points Whenever Possible.

Ford Mustang AirCharger Intake Kit 2015-17

The K&N 63-2589 AirCharger air intake system replaces the restrictive factory air filter and air intake housing on some Ford Mustang models. K&N air intakes are designed to dramatically reduce air intake restriction as well as smooth and straighten air flow. This allows your engine to inhale a larger amount of air than the factory air filter assembly. More air means more usable power and acceleration throughout the engine's RPM range. The 63-2589 air intake comes with a chrome topped K&N high-flow air filter and a heat shield that installs into the original air box space. The tube accommodates the factory crank case vent hose and air inlet temperature sensor as well as the blow off valve.

KN63-2589

FUEL INJECTION PERFORMANCE KIT FIPK GENERATION II

Designed to promote performance in fuel injected stock engines by creating air filtration with the least resistance in air flow. The benefit of low resistance air filters can be felt directly in throttle response. These kits have uniquely designed adapters. These adapters create a radius entry which reduces restriction and allows the engine to ingest an even greater volume of air. To design such an assembly, two factors must be considered; the air filtering element and the air filter adapter. The FIPK combines a precision high flow K&N air filter element with other necessary components, depending on the specific application.

Inverted Top Clamp On Filters

This unique approach to filter design and concept utilizes a filtering top that actually inverts, dropping into the cylinder of the filter! Surface area is greatly increased and designed to provide more filtration than any other comparably sized product. With three color options you can customize your intake to match the rest of your car.

Flange Diameter 3.00" (76mm)
Base Diameter 6.00" (152mm)
Top Diameter 5.25" (133mm)
Filter Length 5.00" (127mm)

Part Number KNRR-3001 (Red)
KNRR-3002 (Blue)
KNRR-3003 (Polished)

UNIVERSAL CLOSED COLD INTAKE SYSTEM

This universal closed cold air intake system is genuine carbon fibre it has a removable and washable 4 layer cotton element. Suitable for forced induction, naturally aspirated, 4x4, off-road, street and racing applications. It comes in two different air box lengths 6" (152.4 mm) and 8" (203.2 mm).

AF2341-3000 Universal Intake system with 6" air box length
AF2341-3001 Universal Intake system with 8" air box length

Washable 4 layer cotton inverted pod filter located inside carbon housing.

Flexible intake tube is 77mm (3") ID and 1m long

PANEL FILTERS

Aeroflow Panel Filters provide excellent filtration and combine durability with performance. Designed for perfect OEM fitment, these 4-layer cotton gauze filters are for the street car and are designed to increase performance. With a simple drop-in application, it is easy to replace your dirty/restrictive/worn filter with a reusable/washable filter that you will never need to change again hence saving you money and protecting the environment. Try one today and experience the Aeroflow difference!

POD FILTERS

Aeroflow Pod filters are manufactured from a high temp Polyurethane material. Featuring an aesthetic 4-layer cotton black design, these are perfect for any aftermarket applications. With increased air flow, these Aeroflow Pod Filters are designed to increase performance. These filters are reusable/washable, hence saving you money and protecting the environment. We have the newest technologies in air filter manufacturing that allows us to provide you with what we feel is the highest quality filter at a great price. Get an Aeroflow Pod Filter today and experience the Aeroflow difference!

AIR FILTER CLEANING KITS

Air Filter Cleaning Products

AeroFlow's air filter cleaning products are specifically formulated for cleaning and re-oiling all AeroFlow reusable/washable filters and all types of oil-based air filters.

- AF2000-5050** AeroFlow air filter cleaning kit contains 295ml (10oz) oil pump style 295ml (10oz) cleaner pumps style
2000-0606 AeroFlow air filter cleaner 295ml (10oz) pump style
2000-0533 AeroFlow air filter oil 295ml (10oz) pump style

K&N Recharger Service Kits

Designed to recharge any K&N Air Filter, the K&N recharger kit restores air flow efficiency so your air filter performs virtually like new! Includes service decal, 355ml filter cleaner and either a 192ml aerosol or a 236ml squeeze bottle of filter oil.

- Recharger Kit with Aerosol Oil**
Recharger Kit with Squeeze Oil
Bulk Pack of 12 x KN99-5000

- KN99-5000**
KN99-5050
KN99-5000-12

K&N Filter Cleaner & Degreaser

K&N Air Filter Cleaner is the only cleaner recommended to clean K&N Air Filter elements. The use of any other cleaning solution can void the filter's warranty, and possibly damage the filter's cotton material. K&N Air Filter Cleaner works to dissolve dirt build up and old filter oil and can be washed away with water.

- 355ml Squirt Bottle** **KN99-0606**
946ml Squirt Bottle **KN99-0621**
3.78L Refill Bottle **KN99-0635**
18.9L Drum **KN99-0640**

K&N Air filter Oil

K&N Air Filter Oil is the only oil specially formulated to work in combination with the cotton fabric in K&N Air Filter elements providing outstanding air filtration. When used as directed, it quickly penetrates the filter pleats, where it remains suspended in the cotton fabric until the element is cleaned with K&N Air Filter Cleaner.

- 192ml Aerosol Can** **KN99-0504**
355ml Aerosol Can **KN99-0516**
236ml Squeeze Bottle **KN99-0533**
3.78L Refill Bottle **KN99-0551**
18.9L Drum **KN99-0555**

The Filter Minder®

The Filter Minder® is an air filter service indicator that monitors air filter restriction and indicates when the air filter should be serviced. As the air filter gets dirty, the yellow position indicator moves in the clear window of the service indicator and locks at the highest point. It can be read even after the engine is turned off. The air filter should not be cleaned until the yellow position indicator reaches the red zone.

- KN85-2444** **FILTER MINDER W/ 1/8 NPT**
KN85-2445 **FILTER MINDER W/ GROMMET**

K&N Synthetic Air Filter Cleaner

K&N 99-0624 is a 32 ounce spray bottle of K&N Synthetic Air Filter Cleaner. The 99-0624 air filter cleaner will bring your K&N synthetic air filter to like new condition. It works to dissolve grime and dirt build up, then it can be washed away with water. It is a great cleaner for K&N Hybrid air filters, K&N Blackhawk air filters, Dryflow air filters and other synthetic air filters.

- Pump spray bottle
 - Specially formulated for synthetic filters
 - Dissolves dirt and grime
 - High performance cleaner
- 946ml Squirt Bottle**
KN99-0624

K&N SEALING GREASE

30ml Squeeze Tube

KN99-0703-1

K&N Sealing Grease

K&N Air Filter Sealing Grease provides an air tight fit around sealing surfaces on all types of air filter elements. It resists heat and will not melt or run off. Note: K&N Air Filter sealing grease is not to be used on clamp-on filter elements.

177ml Squeeze Tube

KN99-0704

X-Stream Clamp On Filters

These X-Stream Air Filters take performance to the next level with innovative K&N air flow technology. The X-Stream Air Filter provides awesome air flow and outstanding filtration. When racing, in any environment, racers need all the protection and airflow they can get. K&N delivers. Two styles are available: standard tapered or reverse tapered (non is larger diameter).

Flange Diameter	Base Diameter	Top Diameter	Filter Length	Part Number

Universal Air Filters - Oval Straight

When selecting one of K&N's universal oval air filters, you should consider the following dimensions as they relate to the specification chart:

(F) Mounting Flange Inside Diameter — This is the most critical dimension and should be very close to the diameter of the application's inlet flanges.

The flanges will stretch up to 1/16" for those in-between sizes. (MA / SA) Filter Oval Dimensions — This is the length and width of the filter. Always use the largest filter practical to fit the application. (L) Filter Length — This dimension is the length of the filter body only, it does not include the flange length Always use the longest filter practical, for maximum filtration. (FA / FL) Flange Angle and/or Length — If no angle is listed in the specifications table, the flange is straight. Any angle listed is in degrees and can be utilised when space is a problem.

Flange Type — The location of the flange in relation to the outside of the filter is sometimes offset to one edge of the filter for more clearance.

(F) Mounting Flange Inside Diameter	(MA/SA) Filter Dimensions	(L) Filter Length	(FL) Flange Length	(FA) Flange Style	(FO) Flange Offset	Rubber End Cap Part #	Chrome End Cap Part #	PreCharger Part #

Special Application Clamp-On Air Filters

Special filters to clamp directly on GM TPI throttle bodies using 1990-92 stock GM or Digital Fuel Injection Computer. Will not work on engines that use a mass-air sensor. NOTE: Not legal for use on emission controlled vehicles that operate on public streets. 21-5/16" x 43/4" oval mounting flange, 4-3/4" x 61/2" oval base, 3-1/4" x 4-1/2" stainless steel oval top, 55/8" filter height, 7/8" flange length RC-5000

21-5/16" x 43/4" oval mounting flange, 4-1/2" x 7" oval base, 4-1/2" x 7" chrome top oval top, 2" filter height, 3/4" flange length RC-5010

21-5/16" x 43/4" oval mounting flange, 5-1/4" x 85/8" oval base, 4" x 6-1/4" stainless steel oval top, 5-1/2" filter height, 7/8" flange length RC-5050

Special filters with metal base and flanges, to allow mounting the filter with a hose, ideal for high temperature applications.

3"OD round mounting flange, 7" filter diameter, 7" chrome top w/1" hole, 6" filter height, 1-5/8" flange length RM-3001

3-1/2"OD round mounting flange, 4-1/2" x 7" oval base, 41/2" x 7" stainless steel top, 31/2" filter height, 5/8" flange length RM-3501

6"OD round mounting flange, 7-1/2" base diameter, 7" chrome top w/1/4-20 stud, 10" filter height, 1" flange length RM-6001

Universal Air Filters - Round Straight

When selecting one of K&N's universal round straight air filters, you should consider the following dimensions as they relate to the specification chart:

(F) Mounting Flange Inside Diameter — This is the most critical dimension and should be very close to the diameter of the application's inlet flange. The flange will stretch up to 1/16" for those in-between sizes. (D) Filter Diameter — This is the overall diameter of the filter. Always use the largest diameter practical to insure maximum filtration. (L) Filter Length — This dimension is the length of the filter body only, it does not include the flange length. Always use the longest filter practical for maximum filtration. (FA / FL) Flange Angle and/or Length — If no angle is listed in the specifications table, the flange is straight. Any angle listed is in degrees and can be utilized when space is a problem. Flange Type — The location of the flange in relation to the OD of the filter is sometimes offset to one edge of the filter for more clearance in an application.

Universal Air Filters - Round

When selecting one of K&N's universal round tapered air filters, you should consider the following dimensions as they relate to the specification chart: (F) Mounting Flange Inside Diameter — This is the most critical dimension and should be very close to the diameter of the application's inlet flange. The flange will stretch up to 1/16" for those in-between sizes. (D) Filter Diameter — This is the outside diameter of the filter. The top size is listed first, then the base size. Always use the largest size filter that is practical for the application. (L) Filter Length — This dimension is the vertical length of the filter body only, it does not include the length of the flange, nor does it take into account the taper of the filter media. Always use the longest filter practical, for maximum filtration. (FA / FL) Flange Angle and/or Length — If no angle is listed in the specifications table, the flange is straight. Any angle listed is in degrees and can be utilised when space is a problem. Flange Type — The location of the flange in relation to the O.D. of the filter is sometimes offset to one edge of the filter for more clearance in an application.

CABIN AIR FILTERS

The K&N Washable Cabin Air Filter is the first of its kind designed to replace your vehicle's stock cabin air filter with a washable and reusable version that cleans and freshens incoming air. Watch the K&N Washable Cabin Air Filters Overview video for more information on how cabin air filters work. K&N Cabin Air Filters are designed to be cleaned and reused over and over again. Using a combination of an advanced synthetic filter media and K&N Refresher™ spray, the K&N Washable Cabin Air Filter grabs and holds dust particles.

- Helps Control Odours • Cleans & Freshens Incoming Air • Electrostatically Charged to Capture Most Mould, Mildew, Pollen, Spores, Fungus & Germs • Factory Fit, Pre-Treated & Ready to Install

Cabin Air Filter

Refresher Kit

K&N cabin air filter cleaning kits come with a 12 ounce pump spray bottle of cabin filter cleaner that loosens dirt and road grime from your K&N cabin air filter and helps remove trapped mould, mildew, fungus, allergens, bacteria and other debris from it. Also included is an 8 ounce pump spray bottle of cabin air filter Refresher which increases the electrostatic properties of the cabin air filter helping it to trap contaminants. This long lasting formula helps eliminate the source of most odours and it is made from safe, biodegradable ingredients.

Part No. KN99-6000
