

SEATS & ACCESSORIES

89 SERIES CONTAINMENT SEAT

KIRKEY RACING ALUMINIUM SPRINT CAR SEAT KIT. Designed for Sprint Cars and Modifieds. Four (4) sizes available, (14", 15", 16", 17"). Smaller sizes fit Midgets and 600 Micros. Kit comes with black cloth cover. Easily removable cover has additional 1/2" energy absorbing padding for extra lumbar support. 10 degree layback. Designed to accommodate all head and neck restraints. Constructed from TIG welded .100" 5052 grade aluminium. Additional MIG welding adds strength. Contoured elongated bottom reinforced for added thigh and hip support. Energy absorbing padding on seat bottom. Rib and reinforced shoulder supports have extra 1/2" energy absorbing padding directly on seat. Head restraint is adjustable both vertically and laterally and uses molded high density energy absorbing impact pads that eliminates upholstery. Head restraint can also rotate down for additional peripheral vision. Fabricated aluminum connector brackets for easy head adjustment. Left side of head restraint angled and shortened to allow easy entry, exit. Right side leg extension built in, left side cut back for easy entry, exit. Lap and sub belt openings have molded rubber grommets to eliminate belt wear. Designed to accommodate all seat belt systems. Mounts direct to chassis or with use Kirkey mounts.

Example of finished foam insert

KIRKEY Molded Seat Foam Insert Kit

Our new molded foam seat insert kit is designed to add form fitting high-density padding to the bottom and lower lumbar of your current seat. Everything you need is included in the kit. Please note that this kit is designed to be used with a seat that fits the driver properly as is. If your seat is too large for you already you will need to purchase a second kit. Check out KIRKEY on YouTube as the video explains Step by step procedures to use the molded seat foam insert kit. Kit includes all necessary materials:

- 2 containers of foam (Part A & B)
- 1/4" Foam Sheet
- 1 Roll Double-Sided Adhesive Gaffers Tape
- Foam Mixer
- Electric Knife
- Plastic Bag
- Seat Cover Material
- Checklist

KI99300

Seat Spacer Kit

SCI has been working hard to make mounting seats faster, safer and easier. This new spacer kit comes as a 4-piece kit that has been designed to accommodate most driver's preference on the seat location. Kit includes a 1", 1/2" and 1/4" spacers as well as the 1-1/2" V block that is machined to fit the back of most seats.

COMMUNICATIONS

MOLDABLE Earphones

The best earphones you could ever wear, follow the simple DIY steps provided and these will deliver perfect sound without shifting under you balaclava or helmet.

RS-KRP585

Raceceiver Fusion 1600

Fusion 1600 Driver Scanner Only It is preprogrammed with 1,600 channels for frequencies between 450-470 MHz, and will allow you to manually scan through the channels, 1 or 100 at a time, to the channel that you want to monitor. Or you have the option of finding a driver's channel by simply following the easy to read channel chart. Channel charts are updated weekly and are available on our website or at trackside locations. It is designed to listen to one driver at a time. You can save your favorite driver to the default channel. It utilizes the industry std 3.5 mm jack, allowing the use of a headset. Each RACEceiver Fusion 1600 package contains a RACEceiver, holster, one AAA battery. It is a must for drivers since it allows race officials to broadcast directly to drivers for safety and efficiency purposes without having the drivers talk back.
Raceceiver Only No Ear Piece **RS-RCVY1600**

HEAD & NECK RESTRAINTS

SIMPSON Hybrid Sport

The Hybrid Sport is lighter, weighing in at 20% less for the large, including hardware; and the DuPont carbon/polymer construction is sleek, modern and appealing with defined wings for seatbelt containment. The sliding tethers and patent pending multi-tether system enhances side to side range of movement and field of vision. Available with SFI or FIA certification. We can further customize your Hybrid Sport with any of the following options. The Seatbelt Anchor System is encouraged for drivers in markets such as Sprint cars and provides more stability to the driver in flips and barrel rolls. For full range of sizes and options speak to our experienced staff.

Call ROCKET for details and pricing.

HARNESSES

SIMPSON 5 Point Harnesses

- Wrap around seat belt pull down
- Available with left side adjustment only or dual side adjustment on lap belt
- Individual shoulder harness wrap around
- Polyester webbing
- Platinum color available for an upcharge.

Dual Side Adjustor

- Black Harness SI29064BK
- Blue Harness SI29064BL
- Red Harness SI29064R

- Black Harness SI29066BK
- Blue Harness SI29066BL
- Red Harness SI29066R

SIMPSON Sprint Car Belt Suit Hans Device

Simpson safety Sprint Car belts is designed for use with HANS device with shoulder belts 2" wide & 3" wide at latch with pull down shoulder belt & with no right side adjustment.
SI29066BK-HN

SIMPSON Hans Dual Shoulder Harness

Standard 3" harness pulls down on the drivers shoulders as usual. The 2" straps are sewn onto the 3", which then secure the Hans to the shoulders. This keeps all body weight off of the Hans under crash situations.
SI30011BK

SIMPSON Ratchet Harness

Strap in like a fighter pilot! Designed for the aircraft industry and now adapted to be fitted to a sprintcar, these help reduce fatigue and hold you tight in the seat by using the ratchet system to pull you in tighter than ever before, shoulder belts are 2" wide & 3" wide at latch to accommodate HANS device with lever & latch buckle assembly. (Supplied with a 1/4" drive ratchet)
SISB51204-16.1

Steel Billet Ratchet Belt Clamp
RS-BUT-HHRM-1375

SCI Ratchet Seat Belt Clamp

Billet clamp is a convenient way to mount ratchet type harnesses, instead of drilling a hole and welding in a spud, just bolt these right on.
RS-SCI-1120

SCI Belt Saver

Never worry about keeping your shoulder harness away from the upper seat bolts again. With a rounded finish and countersunk surface for the bolts to be contained in, the belts don't have a sharp edge to come into contact with.
RS-SCI1170

Weld-In Sleeve Hooker Belt Mount

This weld-in sleeve is designed to be used with the hooker ratchet lap belt.
RS-BUT2151
