AEROFLOW PERFORMANCE LOW PROFILE CAR RAMPS

As per safety product recall (PRA number 2023/19822) on the Aeroflow Performance Low Profile Car ramps (AF98-2109). You have received this pack which will address the safety concerns outlined in the recall.

This pack will contain the following:

1. A new set of instructions that have been printed out. They must be read thoroughly and ensure everything is understood before using these car ramps.
2. Three stickers outlining the specifications for these car ramps.
3. Two warning stickers outlining key points when using the car ramps.

What are the defects on the Car Ramps?

This product does not comply with the requirements of the mandatory standard for portable ramps for vehicles.

The ramps have not been provided with required instructions and required safety labels are not on the ramps.

1. Please place two stickers of the specifications on the end of the ramps shown below. If you still have the colour box these car ramps came in, an extra sticker is also provided for the outside of the box as shown below.

2. Place the one warning sticker directly over the old warning sticker on one side of each car ramp as shown.

3. Once these are done the low profile car ramps are fully complied and ready to use again.
4. Should you have any further questions please contact Aeroflow Performance (02 8825 1979) or email sales@aeroflowperformance.com
